

17695

50 CORNER STAPLES 0.8 MM FOR REF. 54561

- **Use:** Ideal for internal corners where two plastic surfaces join to form an inward angle.
- **Common application:** Internal cracks in components like plastic mounts, interior covers, or housings.
- **Advantage:** The angled design allows for a clean and strong fit in hard-to-reach areas where a straight staple wouldn't fit properly.
