## 15+1M 1/2" RETRACTABLE OIL HOSE REEL

## TECHNICAL SPECIFICATIONS

Tube length	15+1m
Operating pressure	180BAR
Burst pressure	540BAR
Connectors	1/2" BSPT
Diameter	12,7mm
Material	Acero/Steel
Weight	19,00Kg
Dimensions (LxWxH)	640x255x630mm

## SUMMARY

This oil hose reel is designed to facilitate the safe and efficient handling of oil supply in industrial environments or workshops. Made of durable steel, it ensures longevity and resistance to the most demanding working conditions.

Main features:

- Hose length: 15 + 1 meters, providing a wide reach for various applications.
- Maximum working pressure: 2450 PSI, ideal for systems requiring high pressure.
- Inlet and outlet connections: 1/2" BSPT, compatible with a wide range of industrial systems.
- Material: Robust steel structure that ensures long service life and wear resistance.
- Ideal for supplying, transferring or evacuating engine oils, diesel fuels, lubricants, water, used oil and air over long distances.
