3.5T HYDRAULIC TROLLEY JACK - HEAVY DUTY

TECHNICAL SPECIFICATIONS

Capacity	3,5T
Minimum height	133mm
Maximum height	495mm
Compliance with the European directive	EN 1494:2001
Weight	35,80Kg
Dimensions (LxWxH)	685x180x346mm

SUMMARY

A fundamental tool in automotive maintenance environments, whether in workshops, garages, or mechanical service centers. Designed to support a lifting capacity of up to 3.5 tons, it is compatible with most light and utility vehicles. Its robust structure and efficient hydraulic system ensure safe, stable, and durable lifting during repair or inspection operations.
