

ref. 50917

OIL PUMPING GUN WITH DIGITAL FLOW METER

Function

It is a tool designed to measure the quantity of dispensing engine oil, Gear Oil, ATF Oil, anti-freeze and allied products.

Advantages

- ✓ Aluminium swivel body
- ✓ Incorporates a balanced valve

Technical specifications

Air inlet	1/2" BSPF
Flow rate	1-35 L/min
Working Pressure	6-8 bar
Max. Working Pressure	100bar
Oil Temperature Range	-10°C~60°C
Maximum Viscosity	240 SAE
Battery	2x1.5V (batteries included)
Weight	1.4 kg
Flow Meter Accuracy	±0,5%
Flow Meter Repeatability	0,2%
Discharge Rate per Revolution	25ml/R

Packaging
