COMPRESSED AIR TOOL SET

Function

This set consists of the essential pneumatic tools for working with air pressure.

- The paint spray gun is designed for applying varnishes and paints.
- The pistol grip air inflator is designed to determine tyre pressure and inflate tyres.
- The air blow gun is designed to clean dirt and dust particles from bicycle, motorbike or construction site parts.
- The engine washing gun is designed to apply oil, cleaning products or rust protection.

Contains

Gravity paint spray gun with tank	Air Consumption: 0.3-0.5MPa Nozzle Diameter: 1.5mm Tank Capacity: 600ml	
Pistol grip air inflator with gauge	Working Pressure: 0-16 bar/0-220 psi Air Inlet: 1/4" Hose Length: 33cm	
Air blow gun	Working Pressure: 0-12 bar/0-220 psi Air Inlet: 1/4"	
Engine washing gun with tank for cleaning solution	Max. Pressure: 10 bar Air Inlet: 1/4" Capacity: 600CC Pot Material: Steel Body Material: Aluminium Alloy Surface: Powder Coated	
Spiral Hose	Dimension: 5x8mm Max. Length: 4.5m Air Inlet: 1/4"
