CAR TYRE DOLLY 1T

TECHNICAL SPECIFICATIONS

Capacity	1T
Minimum height	50mm
Maximum height	320mm
Maximum wheel diameter	1320mm
Weight	68,00Kg
Dimensions (LxWxH)	1040x1090x890mm

SUMMARY

Designed to lift agricultural and industrial wheels, and to be able to place and remove them from the vehicle without the need for effort or a second or third operator.

By means of the hydraulic jack installed, the height of the wheel support is increased or decreased, thus allowing easy adaptability to different vehicles and wheels.
