

ref. 52263

DOUBLE SUCTION PAD Ø 115MM

Description

This tool is designed for transporting heavy materials such as doors, windows, glass, panels, and stone.

Advantages

- ✓ Rubber suction cups adhere to almost any non-porous surface.
- ✓ Push levers are easy to operate to secure or release the object.
- ✓ Rubber pads prevent surfaces from scratching when lifted.
- ✓ The flexible head can be used on curved windshields.
- ✓ Capable of lifting objects up to 70kg.
- ✓ The handle is reinforced for exerting force.
