

ref. **52265**

## QUADRUPLE SUCTION PAD Ø 115MM

### Function

This tool is designed to transport heavy materials such as doors, windows, glass, panels and stone.

### Advantages

- ✓ Rubber suction cups adhere to almost any non-porous surface
- ✓ Push levers are easy to operate or release the object
- ✓ Rubber pads prevent scratching of surfaces during lifting
- ✓ Elastic head can be used on curved windscreens
- ✓ Capable of lifting objects up to 120kg
- ✓ Handle is reinforced to exert force
