PRODUCT TECHNICAL DATA SHEET

Description: DIESEL COMPRESSION TESTER FOR TRUCKS
Reference: 52685

Photo:

Characteristics:

Contents:

1x Analogic pressure measurement gauge
15x Adaptors
1x Extension hose

This diesel compression tester set includes all the necessary components to test diesel compression on most diesel fueled trucks, cars and tractors.

The compression tester is constructed of durable carbon steel and features a chrome plated gauge to get accurate measurements in harsh environments.

Features include a swivel-end quick-coupler for easy change-out and connection of adaptors.

Adaptors M18 and M24.

M10x1.25x54mm

M10x1.25x68mm / M12x1.25x45mm
