

52805**DRUMBANK SPILL PALLET- 2 VERTICAL DRUM - 650KG****TECHNICAL SPECIFICATIONS**

Capacity	650Kg
Drum loading capacity	250L
Number of drums	2
Material	PE
Weight	31,35Kg
Dimensions (LxWxH)	1300x750x440mm

**SUMMARY**

Spill containment pallet designed for the safe storage of corrosive and flammable liquids in drums. Manufactured from polyethylene (PE), it offers excellent chemical resistance and long-lasting durability, making it a reliable and practical solution for industrial environments.

Advantages:

- Removable grid for easy cleaning
- Easy to transport
- Compatible with most forklifts and pallet trucks
- Made from 100% recyclable material
