

ref. **52884**

# MEMORY SAVER FOR CHANGE BATTERY

## Function

This unit plugs into a car's OBD-II port or lighter outlet. The memory saver stores digital information that typically disappears when a battery is disconnected.

## Advantages

- ✓ Easy to manage
- ✓ OBDII connection by cable or cigarette lighter.
- ✓ Connection to a 12V battery.

## Technical specifications

OBDII length	<b>235mm (+/- 20mm)</b>
Cigarette lighter length	<b>2070mm (+/- 20mm)</b>
