

ref. 53484

SMOKE LEAK DETECTOR

Function

Save time and gain efficiency by detecting any type of leak in: any type of closed circuits (e.g. refrigerant, fuel, exhaust, turbo...), any airlock (like engine blocks), any vehicle compartment.

Advantages

- ✓ Hanger for easy handling.
- ✓ Visual tightness meter for rapid loss detection.
- ✓ Pressure gauge in the closed circuit incorporated.
- ✓ Smoke output flow regulator.
- ✓ Side operating switch, allows to cut the supply half filled.
- ✓ Multi-adapter system to fit in all types of holes.

Technical specifications

Supply	DC12V
12 V connection	With clamps
Air flow	6 l/min

Includes:

1. Principal device
2. Hanger
3. Plastic cap
4. Conical cap
5. Conical tube
6. Oil bottle of 30ml
7. Manual
8. Adjustable cap
