

ref. 53594

8MM AIR HOSE - 25M

Function

Air hoses are used in compressors, pneumatic lines and systems, blowing machines, spray guns and sprayers, and find applications in construction sites, garages, mines and various industrial fields.

Advantages

- ✓ Great flexibility
- ✓ Return to its original form.
- ✓ Smooth surface, does not damage paint.
- ✓ Very resistant
- ✓ To use with: ref. 52736 (M8)

Technical specifications

Inside diameter	8mm
External diameter	13mm
Length	25m
Work pressure	300 PSI / 20 bar
Breakage pressure	950 PSI / 65 Bar
Work temperature	-40°C to 65°C
Material	Hybrid polymer
