

ref. 53610

DIESEL DISPENSER PUMP WITH GUN (230V)

Function

Portable fuel transfer pump. Practical solution for refueling and transferring fuel / diesel when only battery is available. Incorporates long cable with clamps that allows easy connection to the vehicle battery, ideal for agricultural and industrial applications.

Advantages

- ✓ Easy to transport
- ✓ Compact size and built-in handle
- ✓ Easy to use
- ✓ With 230V and 750W motor

Technical specifications

Voltage	230V
Power	550W
Current	10A
Delivery flow rate	60 L/min
Maximum suction head	5m
Inlet hose length	2m
Inlet hose diameter	25mm
Outlet hose length	4m
