## AIR NEEDLE SCALER

## TECHNICAL SPECIFICATIONS

Air intake	1/4"
Range	6,2BAR
Opening	350mm
Weight	1,97Kg
Dimensions (LxWxH)	260x185x57mm

## SUMMARY

Pneumatic needle scaler, designed with tempered and hardened alloy steel needles, each with a diameter of  $\varnothing$  3 mm. The needles are durable and resistant to breakage, ensuring high efficiency in rust removal, paint stripping and weld slag removal.

## Specifications:

- Blows per minute: 4500
- Stroke length: 43 mm
- Average air consumption: 4 CFM / 90 psi
- 19 needles
