

ref. 53681

1" LIGHT WEIGHT AIR IMPACT WRENCH SPECIAL FOR TRUCKS

Function

An impact wrench is a tool designed to offer high torque output. Being pneumatic, the effort of the user is minimal. It converts the pneumatic energy, produced by the compressor, into a rotating mass, then blows it over to the output shaft.

Advantages

- ✓ Twin hammer
- ✓ Easy to manage

Technical specifications

Drive size	1"
Max. torque	2441Nm
Working torque range	300-1965 Nm
Air inlet	1/2"
Free speed	6000 RPM
Length	522 mm
Weight	7,1Kg

Torque value

Speed	FORWARD TORQUE (Nm)	REVERSE TORQUE (Nm)
1	949	949
2	1627	1627
3	1966	1966
