

ref. 53793

16L INDUSTRIAL BACKPACK SPRAYER

Function

- This backpack pulveriser can be used for environmental disinfection of houses, public spaces, livestock farms, gardens, etc.

Advantages

- It is designed specifically to adapt to the back shape, therefore the operator will not feel heavy weight after long time using it.
- Its design makes room between operator's back and chemical tank, making it easier for the evaporation of sweat.

Technical specifications
