

ref. **53874**

OIL DRAIN WITH 90L TANK WITH EXTRACTOR VACUUM

Function

Designed to collect and drain engine oil and gear oil from vehicles by means of its 70L tank, 10L collection strainer and 10L measuring glass.

Advantages

- ✓ With extraction vacuum.
- ✓ Ocular measurement system.
- ✓ Big capacity tank.
- ✓ Handle to facilitate manipulation.
- ✓ Casters to facilitate the transport.

Technical specifications

Air working pressure	8 ~ 10 bar
Vacuum degree	negative 0 ~ 0.8 bar
Tank capacity	70L
Collection strainer capacity	10L
Measuring glass capacity	10L
Oil suction flow rate according to dipstick probe diameter	0.8L/min (Ø5x3.5mm); 1L/min (Ø6x4.5mm); 1.6 L/min (Ø8x6.5mm)
Weight	22kg
Dimensions	43x49x163cm
Medium	Engine oil and gear oil
Recommended working oil temperature	40 ~ 60°C
