

ref. 54186

PNEUMATIC PULLER FOR INJECTORS

Function

Pneumatic injector extractor kit. Includes extractor and several adapters, compatible with a wide variety of injectors on the market.

Through the use of pneumatic force, it allows extracting the injectors without the use of inertia hammers or mechanical extractors.

Advantages

- ✓ Ideal for removing injectors with ease
- ✓ Various adapters
- ✓ Wide compatibility with Diesel injectors
- ✓ All-in-one kit

Technical specifications

Material	Steel
