

**ref. 54230**

3KW HEATER

Function

The heater works by using a fan to blow air over a heat source. This heats the air, which is then exhausted from the heater, heating the room. They can heat an enclosed space, such as a room, faster than a heater without a fan.

Advantages

- ✓ Easy to use
- ✓ Fast and intuitive

**Technical specifications**

| | |
|-------------------|-----------------------|
