## AIR SPRAY GUN

## TECHNICAL SPECIFICATIONS

Air intake	1/4"
Real air consumption	10CFM (283L/min)
Air flow rate	6-10 scfm
Operating pressure	30BAR
Tank capacity	600ml
Maximum flow rate	100-190mL/min
Diameter	1,4-1,8mm
Weight	0,88Kg

## SUMMARY

Designed for professionals, this pneumatic spray gun offers precise and uniform spraying thanks to its gravity feed system. Equipped with Ø1.4 and Ø1.8 mm nozzles, it allows adjustment of the paint flow between 100 and 190 mL/min and a spray width of 160-240 mm, ideal for detailed finishes and large surfaces.

It operates at a working pressure of 0.3 MPa and an air flow of 6-10 scfm, ensuring fine and efficient atomization. Its 600 ml container provides extended autonomy for continuous work.

Perfect for automotive painting, furniture, and industrial applications, it delivers professional results with minimal waste and maximum quality.
