PROFESSIONAL AIR SPRAY GUN

TECHNICAL SPECIFICATIONS

Air intake	1/4"
Real air consumption	10CFM (283L/min)
Air flow	6-10 scfm
Operating pressure	30BAR
Tank capacity	600ml
Maximum flow rate	190ml/min
Spraying capacity	180-260mm
Diameter	1,4mm
Weight	0,98Kg

SUMMARY

Designed to deliver exceptional performance, this gravity-feed pneumatic spray gun ensures a precise and even finish thanks to its \varnothing 1.4 mm nozzle and a spray range between 180 and 260 mm. Its paint flow rate of 190 ml/min, combined with an efficient air flow of 6-10 scfm and a working pressure of 0.3 MPa, guarantees consistent and high-quality spraying. The 600 ml cup allows for comfortable, uninterrupted work.

Included accessories:

- Wrench with fittings to adjust and maintain the spray gun in optimal condition.
- Cleaning brush to facilitate maintenance and extend the tool's lifespan.
