SMOKE LEAK DETECTOR 8L/MIN

TECHNICAL SPECIFICATIONS

Voltage	12V
Flow rate	8L/min
Test pressure	15PSI
Weight	2,20Kg
Dimensions (LxWxH)	195x125x125mm

DETAILS

Precisely pinpoint elusive leaks in:

Exhaust Systems

Intake Manifolds

EVAP Systems

And More!

How it works: Inject harmless smoke into the system, visually revealing the leak point for repair.

Benefits:

Accurate detection, even in tight spaces

Prevent major damage

Fast diagnostics that save you time and money

Easy to use
