ELECTRIC BRAKE BLEEDER

TECHNICAL SPECIFICATIONS

Operating pressure	0,6-3,0BAR
Adapters	16
Power	48W
AC voltage measurement	90-240V
DC voltage measurement	12-24V
Flow rate	2,2LPM
Weight	7,00Kg
Dimensions (LxWxH)	240x200x280mm

DETAILS

This brake bleeder uses an electrical system to generate pressure and extract trapped air from the brake system. This kit comes with multiple adapters and is universal.

ADVANTAGES:

- ✓ Ease of use.
- ✓ Versatility.
- ✓ Precision and consistency.

ACCESSORIES:

x16 Adapters.

x1 Connector

AC-DC Converter

Refill hose: 3.5m.

Working pressure: 0.6-3.0 bar (the device should not be set to work at a pressure higher than 3.0 bar).

Anti-air support: Yes.

Noise level: ≤50dB.
