SET OF HEXAGONAL LED CEILING LIGHTS

TECHNICAL SPECIFICATIONS

Brightness	83640Lm
Power	615W
Efficiency	110-120Lm/W
Voltage	185-240V
LED type	2835
Number of LED's	12
LED color temperature	6500k
Material	Al + PC
Cable lenght	1,5m con enchufe europeo/ EU Plug
IP protection	IP45
Weight	7,50Kg
Dimensions (LxH)	2430x4835mm

This set of hexagonal LED lights, with a honeycomb design, offers a **practical and modern lighting solution**, ideal for workshops, garages, and spaces that require powerful and uniform brightness. Its cool white light of 6500K ensures **clear and precise visibility**, while the hexagonal pattern adds an **elegant and distinctive aesthetic** touch. Unlike other models with PVC frames, our design features a 0.3 mm thick aluminum frame, which improves heat dissipation and extends the product's lifespan, ensuring optimal and durable performance.
