**54883****PROFESSIONAL ELECTRIC ANGLE CUTTER 2400W (230MM)****SUMMARY**

This angle grinder is designed for highly demanding cutting and grinding tasks. Equipped with a powerful 2400 W motor and variable speed from 6,000 to 8,000 rpm, it delivers consistent performance even on hard materials. Its 230 mm disc provides greater working capacity, making it ideal for intensive use in industrial environments or professional workshops.

Includes an additional set of carbon brushes.

Technical specifications:

- Speed: 6,000 – 8,000 rpm
- Disc inner diameter: 22 mm
- Spindle thread: M14
- Cable length: 4 m
- Sound power level: 92 dB
