PORTABLE CHARGER 3.7 KW, 16 A, WITH TYPE 2 CHARGING CABLE (SINGLE PHASE)

TECHNICAL SPECIFICATIONS

Power	3,70KW
Voltage	230V
Working current	16A
Tightness / Sealing	IP65
Operating temperature	-25°C/+45°C
Plug type	Monofásico/Single-Phase, Tipo/Type2
Cable lenght	5m

The 16A charger with Type 2 cable is the perfect solution for electric vehicle owners looking for a practical, fast and safe charging option. Its robust design, universal compatibility and ease of use make it one of the best options available on the market.

ADVANTAGES

- **Universal Compatibility:** Fully compatible with a wide range of electric vehicles using the Type 2 standard
- **Safety and Reliability:** Equipped with overload and short-circuit protection, ensuring a safe charging environment for both user and vehicle
- **Portability:** Its compact and lightweight design allows easy transport, making it ideal for charging at home, at work or while travelling
- **Easy to Use:** Simple installation and operation, with no advanced technical knowledge required
