

TECHINCAL DATASHEET

ref. **60027**

INDUSTRIAL BACKPACK ELECTRIC SPRAYER 15L

Function

Designed to spray pesticide liquid to the area you wish to disinfect. Suitable for environmental disinfection of houses, public spaces, livestock farms, gardens, etc.

Advantages

- ✓ Breathable and ergonomic back pad to avoid the feeling of heaviness after a long period of use and facilitate the dissipation of sweat
- ✓ Diaphragm pump smart handle pressure switch which can be locked on for a continuous operation
- ✓ A refill cap with an anti-release design.
- ✓ Handle for easy carrying with a support to place the lance
- ✓ extensible telescopic spraying lance.
- ✓ Equipped with 4 different interchangeable nozzles

Technical specifications

Tank capacity	15L
Pump working voltage	20V
Pump working pressure	0.3-0.45Mpa
Pump pressure switch	0.45-0.54Mpa
Pump lever length	15cm
Adjustable lance length	40-80cm
Complete lance length	120cm
Hose length	140cm
Spraying distance	1-1.2m
Carrying strap size	38x6.5cm
Carrying strap adjustable length	37cm
Dimensions	363x252x622mm
Weight	5.2kg
Power source	20V rechargeable lithium-ion battery (not included)
Working duration	1.5h-2h (2Ah battery), 3.5h-4h (4Ah battery)

Pressure and flow according to the nozzle used:

Picture	Nozzle	Pressure (Mpa)	Flow (L/min)
	Hollow cone nozzle	0.30	0.76
	4-hole adjustable nozzle	0.30	1.20
	Dual hollow cone nozzle	0.30	1.22
	Fan nozzle	0.30	1.4

Compatible with the following batteries and chargers:

60012 - 2.0 Ah LI-ION BATTERY

60013 - 4.0 Ah LI-ION BATTERY
