

ref. 60048

3/4" BRUSHLESS IMPACT WRENCH

Function

This tool has been designed to tighten and loosen lug nuts and screws which requires a high torque.

It is equipped with a work LED light and a rotation selector which also allows you to lock off the trigger and prevent an accidental starting of the tool.

It has 5 different gears, 3 for tightening and 2 for loosening, allowing a speed adjustment according to operation to be carried out.

Also, it has an ergonomic handle for an improved grip and precision.

Advantages

- ✓ Light
- ✓ Brushless motor

Technical specifications

Shaft output size	3/4" (19mm)
No load speed	1100/1400/1800 RPM
Impact frequency	1000/1600/2200 IPM
Maximum torque	1300Nm
Power	1000W
Voltage	20V
Brushless motor	Yes
Noise Level	Lwa: 112dB (A) Lpa: 98dB (A)
Vibration level	19,8m/s2
No. of gears (tighten)	3
No. of gears (untighten)	2
Weight	3.2 kg
