

Golden Angel Society®

2023 Golden Angels Gala
Saturday, April 22, 2023
7 PM

Ice Palace Studios
1400 N Miami Ave.
Miami, FL 33136

Golden Angels Gala Chairs
Jeannie Etter & David Coulson and Jerry Cody

Each year, the community comes together to raise funds for Jackson Health System (JHS) at our annual Golden Angels Gala, one of South Florida's most highly anticipated fundraising events of the season.

Our Golden Angels Gala honors the generosity of the many philanthropists who have contributed to making miracles happen at Jackson. Our Golden Angels have raised millions to support Jackson's mission and generously host our gala.

This year, the Golden Angels Gala will commemorate the 30th Anniversary of the Ryder Trauma Center at Jackson Memorial Hospital. Ryder Trauma opened in 1992. It serves as the U.S. Army's only trauma training center and it is South Florida's premier trauma center treating an average of 5,500 patients each year.

Jackson Health
FOUNDATION.
Making miracles happen.

Jackson Health
FOUNDATION.
Making miracles happen.

The Golden Angel Society is Jackson Health Foundation's premier giving society whose members have a strong sense of commitment to the Jackson Health System. Through the generosity of our Golden Angels, we can continue to fund the most advanced treatments, innovative technology and state-of-the-art facilities to support the work being done at Jackson Health System. Jackson is one of the nation's largest and most respected public healthcare networks, dedicated to offering world-class care to all residents of Miami-Dade County, regardless of their ability to pay.

Event and Attendee Details

Golden Angel Society

Jackson Health
FOUNDATION.
Making miracles happen.

Gifts to the Miracle Fund help Jackson Health System continue to provide high-quality healthcare services to all Miami-Dade residents, regardless of their ability to pay. The Miracle Fund has been used to cover costs for state-of-the-art equipment that assists our doctors and nurses with the most complex surgeries and procedures; capital support for new facilities and renovations, as well as projects and activities to brighten up patients during their stay in our hospitals, and much more.

About the Miracle Fund

Golden Angel Society

Grounded by the award-winning care provided at Jackson and powered by the medical research of our academic partner, the University of Miami Miller School of Medicine, Jackson is a leading specialty care provider for patients from South Florida, across the nation, and abroad. In its more than 100 years of service to South Florida, Jackson Health System has grown to include a comprehensive network of hospitals, specialty care facilities, urgent care centers, and primary care clinics serving all of South Florida and includes: Jackson Memorial Hospital; Jackson North Medical Center, serving the North Miami-Dade and south Broward communities; Jackson South Medical Center, caring for the residents of unincorporated south Miami-Dade; and the Jackson West Medical Center, home to José Milton Memorial Hospital.

About Jackson Health System

Golden Angel Society®

Over the last decade, Jackson Health System has renovated aged facilities, built new ones, and made smart investments in the latest technology and equipment, thanks to an \$830 million Jackson Miracle-Building Bond approved by Miami-Dade voters in 2013 and the health system's own reinvestments. That capital plan has now exceeded \$2 million – and more construction is on the horizon as we continue to build a new Jackson.

The next major project is a new, 170,000 square-foot emergency department at Jackson Memorial Hospital, which will include 116 adult emergency beds, four resuscitation rooms, fast-track exam spaces, 24 pediatric treatment beds, a 60-bed observation unit on the second floor, and diagnostics.

Set to open in early 2023 is Jackson's first freestanding emergency department, Jackson Medical Pavilion, in Coral Gables. The facility will include an emergency room staffed by Jackson's highly skilled board-certified physicians and compassionate nurses. The site will also house medical offices for outpatient visits with Jackson doctors.

Jackson Health
FOUNDATION.

Making miracles happen.

Jackson is also in the planning phases of a new UHealth Jackson Children's Care outpatient pavilion that would house numerous specialties under one roof. The new facility, which will be built on the Jackson Memorial Medical Center campus just steps from Holtz Children's Hospital, will provide patients with a one-stop shop for comprehensive clinical services. It will also be home to the Shriners Children's Orthopedic Center at UHealth Jackson Children's Care, following an unprecedented \$16 million grant from Shriners Hospitals for Children to Jackson Health Foundation and UHealth – University of Miami Health System. The facility will create a new regional center of excellence that will advance world-class care for children with traumatic injuries and debilitating conditions, such as spina bifida, muscular dystrophy, and cerebral palsy.

Renovations will also continue inside of Holtz Children's Hospital, including a new emergency department that will include 24 exam rooms, five triage rooms, two resuscitation rooms, and four behavioral health rooms. Just steps from there, a new Ronald McDonald House is being built – a 60,000 square-foot facility with 48 hotel suits with family-friendly amenities for the families of pediatric patients receiving care at Holtz Children's.

The Future of Jackson

Golden Angel Society®

Jackson Health
FOUNDATION.
Making miracles happen.

Since its inception in 1991, Jackson Health Foundation has raised more than \$200 million to help Jackson Health System (JHS) deliver the best possible care to the community. Gifts made to Jackson Health Foundation ensure in part that Jackson will be able to renovate or build state-of-the-art facilities and continue to provide accessible health care services that are critically important to the quality of life and health of our shared communities. Through the generosity of compassionate donors, the Foundation helps to fill the gaps of major capital projects and programmatic needs that cannot be financed by public bond support.
