

SERVICE & MAINTENANCE

JLC provide comprehensive service, maintenance & training packages tailored directly to your specific requirements. We also have the personnel to fully complete a new install without the use of Sub-contractors and are able to provide all the physical components required.

Key features

- All our maintenance contracts strive to ensure maximisation of asset life and minimal down-time.
- Each contract is uniquely customised & structured to each clients requirements.
- Extensive reactive cover with varying degrees of response rate is also available 24/7 for customers who require constant cover for specialist assets or secure locations.
- All our technicians are manufacturer certified and competently qualified to ensure assets are operating correctly.

Not only can we supply the required parts & labour to complete new installation projects, JLC Group also has the competence to act as principal contractor on sites with full CDM capabilities.

We offer a comprehensive range of after-care packages covering the service, maintenance, repair and 24/7 support for our entire product range. We can supply and install a comprehensive range of world class automated equipment for both domestic and commercial environments.

We have received many prestigious awards and accolades for our work, including Supplier of the Year to London Gatwick, ISO Certification and an EBITDA for cost reduction initiatives.
