

AIRCRAFT WHEEL TROLLEYS

Introducing our state-of-the-art, custom-designed aircraft wheel trolley, now operational. This was a collaborative design developed in close partnership with British Airways, the trolley is tailored to their precise specifications, ensuring a perfect fit for their maintenance needs.

Key features

- **Superior Performance** - Built to withstand the rigors of daily use in a busy airline environment, our trolley boasts exceptional manoeuvrability and load-bearing capacity.
- **Enhanced Safety** - Incorporating the latest safety features, our aircraft wheel trolley minimises the risk of accidents and ensures the well-being of maintenance staff.
- **Customisation** - Our engineers are adept at turning unique requirements into functional realities, making this trolley a true one-of-a-kind solution.
- **Durability** - Constructed from high-quality materials, this trolley is designed to stand the test of time, reducing maintenance costs and downtime.
- **Warranty** - 12 months

This masterpiece of engineering is the result of a collaborative effort between our expert team and the esteemed professionals at British Airways, ensuring that it not only meets but exceeds their specific requirements for performance and durability.

This tailor-made solution has been meticulously crafted to enhance efficiency and safety in the demanding world of aircraft maintenance.
