From Editors

Welcome to the 2012 March issue of the GMJ. Since GMJ started publishing biannually, the number of inquiries and submissions has increased substantially. Although we wish to accommodate all submissions, inevitably a proportion gets rejected due to various reasons. Maintaining the quality of the journal is the major concern of the editorial board.

We wish to express our sincere gratitude to reviewers of the manuscripts. They volunteered their precious time and contributed tremendously to maintain the quality of the journal. In fact, the entire staff attached to the GMJ work on voluntary basis amid their other professional commitments. We value their contribution and commitment to publish the journal regularly.
