Supplementary materials: Post-project questions

Dear [name],

I hope this finds you well. As you might recall, from <year start till year end>, we were in touch for the MICS project, using the MICS Impact Journey approach in a number of workshops to help you understand and monitor impacts of <CS initiative title here>.

Now we are conducting a scientific study that reflects on the MICS Impact Journey approach and we would like to kindly ask for your participation by responding to the questions below. Your responses to these questions will be used for academic research purposes only. All data will be treated confidentially and analysed in anonymised form.

Your contribution is voluntary, and you may choose not to answer any question or to withdraw at any time without explanation. If you have any questions about the study, feel free to contact me.

Thank you very much in advance for your time and valuable support.

Kind regards,
[Your Name]

Questions:

Did the Impact journey approach provided by the MICS project (till early 2021) help <CS initiative title here> achieve specific impacts?

- *If so, which? And which impacts were expected/unexpected?*
- *If the MICS Impact journey approach did **not** help you achieve specific impacts, can you explain why?*

Have you continued to use the MICS Impact Journey approach for <CS initiative title here> since 2021?

- *If you stopped using the MICS Impact Journey approach, when did you stop and what were the main reasons for stopping?*
- *If you continued, how did you use the MICS Impact Journey approach? Did it become part of a regular workflow?*
- *What did you find easy/difficult about the MICS Impact Journey approach?*

How have your needs for insights into the outcomes and impacts of <CS initiative title here> changed since 2021?
