

TECH RIDER

Basic Solo Performance

Sound / Stage requirements

/ Stereo PA system with subwoofer

/ 2 stage monitors

/ 1 table covered with black cloth (minimum size: 110 cm (L) × 80 cm (W) × 75 cm (H)) + chair or stool

/ 1 power strip with at least 4 outlets

/ 1 compact mixer on stage (Mackie 802 VLZ4 or equivalent) + 2 balanced XLR or TRS cables to main PA

For a duo performance with Sofia A. Carvalho, please add:

/ 2 sheet music stands with lights

/ 1 microphone stand

/ 1 XLR microphone cable

Lighting requirements

/ Low-intensity / dim LED lighting

/ Preferred colours: dark blue / green, deep red or burgundy / velvet tones

/ No bright, flashing or dynamic lighting effects

/ Lighting should remain subtle and atmospheric throughout the performance

/ If available, a small adjustable light focused on the audio equipment table (desk lamp or small USB LED light, ideally with brightness control)

Your assistance in meeting these requirements is greatly appreciated, thanks in advance!

All the best,

João Castro Pinto

**Note: This technical rider outlines the ideal requirements for a performance. However, depending on the venue and local conditions, adjustments will be discussed and agreed upon as necessary.
