1. The Journal of Science and Technology is aimed for publishing research works with novel scientific and practical values in scientific research, technological transfer and production practice. The work described must not have been published in or submitted to other scientific journals.
2. The manuscript can be written in both Vietnamese and English. Manuscript submission in English is strongly recommended.
3. The manuscript must be five-page long, typewritten in A4 size and prepared according to the journal's template.
