- Project Schedule dated 10/5/2026

PROGRESS

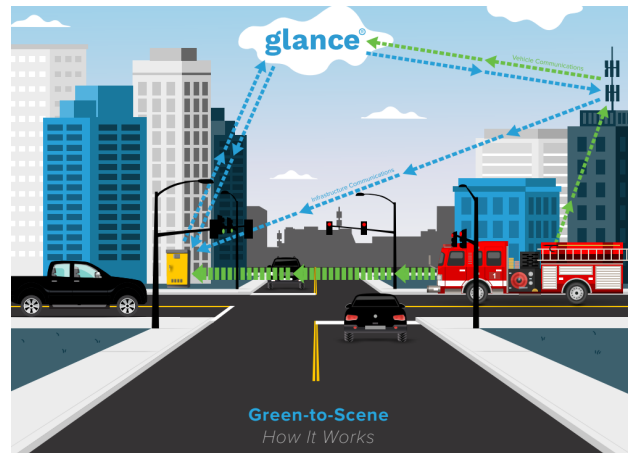

Site Logistics Plan

Emergency Signal Function

Glance Pre-Emption System – Newer technology that replaces line-of-sight Opticom system with GPS pre-emption. Helps to clear vehicle queues at major signalized intersections ahead of time.

- Updated pre-emption system requires the replacement of emergency pre-emption hardware at all signal systems.
- Recently installed in Nashua and Manchester, NH.

Potential Traffic Signal Improvements

Energy-Conscious Design

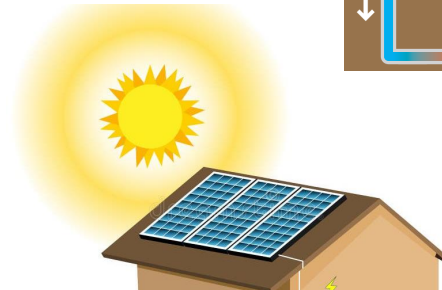

- All-electric building
- Heating & cooling from ground source plant
- Energy-efficient building envelope

Renewable Energy

- PV (solar) arrays

Water Efficiency

- High efficiency water-saving fixtures
- Drought-tolerant landscaping

Energy and Sustainability Measures
