NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF ILWACO, WASHINGTON, DOES ORDAIN AS FOLLOWS:

Section 1. Chapter 13.18 is amended to read as follows:

3.18.040 Definitions.

In construing the provisions of this chapter, the following definitions shall be applied. Words in the singular number shall include the plural, and the plural shall include the singular.

"Business" includes all activities engaged in with the object of gain, benefit, or advantage to the taxpayer or to another person or class, directly or indirectly.

"Business and occupation tax or gross receipts tax" means a tax imposed on or measured by the value of products, the gross income of the business, or the gross proceeds of sales, as the case may be, and that is the legal liability of the business.

"Commercial or industrial use" means the following uses of products, including byproducts, by the extractor or manufacturer thereof:

A. Any use as a consumer; and

B. The manufacturing of articles, substances or commodities.

“Delivery” means the transfer of possession of tangible personal property between the seller and the buyer or the buyer’s representative. Delivery to an employee of a buyer is considered delivery to the buyer. Transfer of possession of tangible personal property occurs when the buyer or the buyer’s representative first takes physical control of the property or exercises dominion and control over the property. “Dominion and control” means the buyer has the ability to put the property to the buyer’s own purposes. It means the buyer or the buyer’s representative has made the final decision to accept or reject the property, and the seller has no further right to possession of the property and the buyer has no right to return the property to the seller, other than under a warranty contract. A buyer does not exercise dominion and control over tangible personal property merely by arranging for shipment of the property from the seller to itself. A buyer’s representative is a person, other than an employee of the buyer, who is authorized in writing by the buyer to receive tangible personal property and take dominion and control by making the final decision to accept or reject the property. Neither a shipping company nor a seller can serve as a buyer’s representative. It is immaterial where the contract of sale is negotiated or where the buyer obtains title to the property. Delivery terms and other provisions of the Uniform Commercial Code (Title 62A RCW) do not determine when or where delivery of tangible personal property occurs for purposes of taxation.

“Digital automated service,” “digital code” and “digital goods” shall have the same meaning as in RCW 82.04.192.

“Digital products” means digital goods, digital codes, digital automated services and the services described in RCW 82.04.050(2)(g) and (6)(b).

“Eligible gross receipts tax” means a tax which:

A. Is imposed on the act or privilege of engaging in business activities within Section 3.18.050 of this chapter; and

B. Is measured by the gross volume of business, in terms of gross receipts and is not an income tax or value added tax; and

C. Is not, pursuant to law or custom, separately stated from the sales price; and

D. Is not a sales or use tax, business license fee, franchise fee, royalty or severance tax measured by volume or weight, or concession charge, or payment for the use and enjoyment of property, property right or a privilege; and

E. Is a tax imposed by a local jurisdiction, whether within or without the state of Washington, and not by a country, state, province, or any other nonlocal jurisdiction above

the county level.

“Engaging in business” means:

A. Commencing, conducting, or continuing in business, and also the exercise of corporate or franchise powers, as well as liquidating a business when the liquidators thereof hold themselves out to the public as conducting such business.

B. This definition sets forth examples of activities that constitute engaging in business in the city, and establishes safe harbors for certain of those activities so that a person who meets the criteria may engage in de Minimis business activities in the city without having to register and obtain a business license or pay city business and occupation taxes. The activities listed in this definition are illustrative only and are not intended to narrow the definition of “engaging in business” in subsection A of this definition. If an activity is not listed, whether it constitutes engaging in business in the city shall be determined by considering all the facts and circumstances and applicable law.

C. Without being all inclusive, any one of the following activities conducted within the city by a person, or its employee, agent, representative, independent contractor, broker or another acting on its behalf constitutes engaging in business and requires a person to register and obtain a business license.

- 1. Meeting with suppliers of goods and services as a customer;**
- 2. Meeting with government representatives in their official capacity, other than those performing contracting or purchasing functions;**

3. Attending meetings, such as board meetings, retreats, seminars, and conferences, or other meetings wherein the person does not provide training in connection with tangible personal property sold by the person or on its behalf. This provision does not apply to any board of directors member or attendee engaging in business such as a member of a board of directors who attends a board meeting;

4. Renting tangible or intangible property as a customer when the property is not used in the city;

6. Conducting advertising through the mail;

7. Soliciting sales by phone from a location outside the city.

E. A seller located outside the city merely delivering goods into the city by means of common carrier is not required to register and obtain a business license; provided, that it engages in no other business activities in the city. Such activities do not include those in subsection D of this definition. The city expressly intends that engaging in business includes any activity sufficient to establish nexus for purposes of applying the tax under the law and the Constitutions of the United States and the state of Washington. Nexus is presumed to continue as long as the taxpayer benefits from the activity that constituted the original nexus generating contact or subsequent contacts.

B. Where such products, including byproducts, are extracted or manufactured for commercial or industrial use; and where such products, including byproducts, are shipped, transported or transferred out of the city, or to another person, without prior sale or are sold under circumstances such that the gross proceeds from the sale are not indicative of the true value of the subject matter of the sale; the value shall correspond as nearly as possible to the gross proceeds from sales in this state of similar products of like quality and character, and in similar quantities by other taxpayers, plus the amount of subsidies or bonuses ordinarily payable by the purchaser or by any third person with respect to the extraction, manufacture, or sale of such products. In the absence of sales of similar products as a guide to value, such value may be determined upon a cost basis. In such cases, there shall be included every item of cost attributable to the particular article or article extracted or manufactured, including direct and indirect overhead costs. The city may prescribe rules for the purpose of ascertaining such values.

C. Notwithstanding subsection B of this definition, the value of a product manufactured or produced for purposes of serving as a prototype for the development of a new or improved product shall correspond to: (1) the retail selling price of such new or improved product when first offered for sale; or (2) the value of materials incorporated into the prototype in cases in which the new or improved product is not offered for sale.

“Value proceeding or accruing” means the consideration, whether money, credits, rights, or other property expressed in terms of money, a person is entitled to receive or which is

The gross receipts tax imposed in this section shall not apply to any person whose gross proceeds of sales, gross income of the business, and value of products, including byproducts, as the case may be, from all activities conducted within the city during any calendar year is equal to or less than twenty thousand dollars (\$20,000.00), or is equal to or less than five thousand dollars (\$5,000.00) during any quarter if on a quarterly reporting basis. (Ord. 755B (part), 2009)

3.18.070 Credit for business activities.

A. **Taxable Business Activities.** Persons who engage in business activities that are within the purview of two (2) or more subsections of Section 3.18.050 of this chapter shall be taxable under each applicable subsection.

B. **Undue Burden.** Notwithstanding anything to the contrary herein, if imposition of the city's tax would place an undue burden upon interstate commerce or violate constitutional requirements, a taxpayer shall be allowed a credit to the extent necessary to preserve the validity of the city's tax, and still apply the city tax to as much of the taxpayer's activities as may be subject to the city's taxing authority.

C. Documentation. To take the credit authorized by this section, a taxpayer must be able to document that the amount of tax sought to be credited was paid upon the same gross receipts used in computing the tax against which the credit is applied.

D. Selling Products Extracted or Manufactured. Persons taxable under the retailing or wholesaling classification with respect to selling products in this city shall be allowed a credit against those taxes for any eligible gross receipts taxes paid: (1) with respect to the manufacturing of the products sold in the city, and (2) with respect to the extracting of the products, or the ingredients used in the products, sold in the city. The amount of the credit shall not exceed the tax liability arising under this chapter with respect to the sale of those products.

E. Manufactured Products Using Ingredients Extracted. Persons taxable under the manufacturing classification with respect to manufacturing products in this city shall be allowed a credit against those taxes for any eligible gross receipts taxes paid with respect to extracting the ingredients of the products manufactured in the city. The amount of the credit shall not exceed the tax liability arising under this chapter with respect to the manufacturing of those products.

F. Selling Products Printed, or Published and Printed. Persons taxable under the retailing or wholesaling classification with respect to selling products in this city shall be allowed a credit against those taxes for any eligible gross receipts taxes paid with respect to the printing, or the printing and publishing, of the products sold within the city. The amount of the credit shall not exceed the tax liability arising under this chapter with respect to the sale of those products. (Ord. 755B (part), 2009)

3.18.080 Deductions for taxes due prior to January 1, 2008.

A. Same Activity in More than One (1) Jurisdiction. For taxes due prior to January 1, 2008, a taxpayer that is subject to an eligible gross receipts tax on the same activity in more than one (1) jurisdiction may be entitled to a deduction as follows:

- 1.** A taxpayer that has paid an eligible gross receipts tax, with respect to a sale of goods or services, to a jurisdiction in which the goods are delivered or the services are provided may deduct an amount equal to the gross receipts used to measure that tax from the measure of the tax owed to the city.
- 2.** Notwithstanding the above, a person that is subject to an eligible gross receipts tax in more than one (1) jurisdiction on the gross income derived from intangibles such as royalties, trademarks, patents, or goodwill shall assign those gross receipts to the jurisdiction where the person is domiciled (its headquarters is located).

3. A taxpayer that has paid an eligible gross receipts tax on the privilege of accepting or executing a contract with another city may deduct an amount equal to the contract price used to measure the tax due to the other city from the measure of the tax owed to the city.

B. Person Manufacturing Products Within and Without. A person manufacturing products within the city using products manufactured by the same person outside the city may deduct from the measure of the manufacturing tax the value of products manufactured outside the city and included in the measure of an eligible gross receipts tax paid to the other jurisdiction with respect to manufacturing such products. (Ord. 755B (part), 2009)

3.18.090 Sale of intangibles.

Gross income derived from the sale of intangibles such as royalties, trademarks, patents, or goodwill shall be assigned to the jurisdiction where the person is domiciled (its headquarters is located). (Ord. 755B (part), 2009)

3.18.100 Allocation and apportionment of income.

Gross income, other than persons subject to the provisions of Chapter 82.14A RCW, shall be allocated and apportioned as follows:

A. Gross income derived from all activities other than those taxed as service or royalties under Section 3.18.050A7 of this chapter shall be allocated to the location where the activity takes place.

B. In the case of sales of tangible personal property, the activity takes place where delivery to the buyer occurs.

C. In the case of sales of digital products, the activity takes place where delivery to the buyer occurs. The delivery of digital products will be deemed to occur at:

1. The seller's place of business if the purchaser receives the digital product at the seller's place of business;

2. If not received at the seller's place of business, the location where the purchaser or the purchaser's 17one, designated as such by the purchaser, receives the digital product, including the location indicated by instructions for delivery to the purchaser or 17one, known to the seller;

3. If the location where the purchaser or the purchaser's 17one receives the digital product is not known, the purchaser's address maintained in the ordinary course of the seller's business when use of this address does not constitute bad faith;

4. If no address for the purchaser is maintained in the ordinary course of the seller's business, the purchaser's address obtained during the consummation of the sale, including the address of a purchaser's payment instrument, if no other address is available, when use of this address does not constitute bad faith; and

5. If no address for the purchaser is obtained during the consummation of the sale, the address where the digital good or digital code is first made available for transmission by the seller or the address from which the digital automated service or service described in RCW 82.04.050(2)(g) or (6)(b) was provided, disregarding for these purposes any location that merely provided the digital transfer of the product sold.

D. If none of the methods in subsection C of this section for determining where the delivery of digital products occurs are available after a good faith effort by the taxpayer to apply the methods provided in subsections C1 through C5 of this section then the city and the taxpayer may mutually agree to employ any other method to effectuate an equitable allocation of income from the sale of digital products. The taxpayer will be responsible for petitioning the city to use an alternative method under this subsection. The city may employ an alternative method for allocating the income from the sale of digital products if the methods provided in subsections C1 through C5 of this section are not available and the taxpayer and the city are unable to mutually agree on an alternative method to effectuate an equitable allocation of income from the sale of digital products.

E. For purposes of subsections C1 through C5 of this section, the following definitions apply: (a) "Digital automated services," "digital codes," and "digital goods" have the same meaning as in RCW 82.04.192; (b) "Digital products" means digital goods, digital codes, digital automated services, and the services described in RCW 82.04.050 (2)(g) and (6)(c).

F. For purposes of subsections C1 through C5 of this section, "receive" has the same meaning as in RCW 82.32.730.

G. Effective January 1, 2020, gross income derived from activities taxed as services and other activities taxed under Section 3.18.050A7 shall be apportioned to the city by multiplying apportionable income by a fraction, the numerator of which is the payroll factor plus the service income factor and the denominator of which is two (2).

1. The payroll factor is a fraction, the numerator of which is the total amount paid in the city during the tax period by the taxpayer for compensation and the denominator of which is the total compensation paid everywhere during the tax period. Compensation is paid in the city if: (a) the individual is primarily assigned within the city; (b) the individual is not primarily assigned to any place of business for the tax period and the employee performs fifty percent (50%) or more of his or her service for the tax period in the city; or (c) the individual is not primarily assigned to any place of business for the tax period, the individual does not perform fifty percent (50%) or more of his or her service in any city

and the employee resides in the city.

2. The service income factor is a fraction, the numerator of which is the total service income of the taxpayer in the city during the tax period, and the denominator of which is the total service income of the taxpayer everywhere during the tax period. Service income is in the city if: (a) the customer location is in the city; ~~or (b) the income producing activity is performed in more than one location and a greater proportion of the service income producing activity is performed in the city than in any other location, based on costs of performance, and the taxpayer is not taxable at the customer location; or (c) the service income producing activity is performed within the city, and the taxpayer is not taxable in the customer location.~~

3. Gross income of the business from engaging in an apportionable activity must be excluded from the denominator of the service income factor if, in respect to such activity, at least some of the activity is performed in the city, and the gross income is attributable under (b) of this subsection (6) to a city or unincorporated area of a county within the United States or to a foreign country in which the taxpayer is not taxable. For purposes of this subsection (6)(c), "not taxable" means that the taxpayer is not subject to a business activities tax by that city or county within the United States or by that foreign country, except that a taxpayer is taxable in a city or county within the United States or in a foreign country in which it would be deemed to have a substantial nexus with the city or county within the United States or with the foreign country under the standards in RCW 35.102.050 regardless of whether that city or county within the United States or that foreign country imposes such a tax.

4. If the allocation and apportionment provisions of this subsection (G) do not fairly represent the extent of the taxpayer's business activity in the city, ~~or cities in which the taxpayer does business~~, the taxpayer may petition for or the tax administrators may jointly require, in respect to all or any part of the taxpayer's business activity, ~~that one of the following methods be used jointly by the cities to allocate or apportion gross income~~, if reasonable: (a) separate accounting; (b) ~~the use of a single factor~~ the exclusion of any one or more of the factors; (c) the inclusion of one or more additional factors that will fairly represent the taxpayer's business activity in the city; or (d) the employment of any other method to effectuate an equitable allocation and apportionment of the taxpayer's income.

5. The party petitioning for, or the tax administrator requiring, the use of any method to effectuate an equitable allocation and apportionment of the taxpayer's income pursuant to subsection (d) of this subsection (G) must prove by a preponderance of the evidence: (a) that the allocation and apportionment provisions of this subsection (G) do not fairly represent the extent of the taxpayer's business activity in the city; (b) that the alternative to such provisions is reasonable. The same burden of proof shall apply whether the taxpayer is petitioning for, or the tax administrator is requiring, the use of an alternative, reasonable method to effectuate an equitable allocation and apportionment of the taxpayer's income.

6. If the tax administrator requires any method to effectuate an equitable allocation and apportionment of the taxpayer's income, the tax administrator cannot impose any civil or criminal penalty with reference to the tax due that is attributable to the taxpayer's reasonable reliance solely on the allocation and apportionment provisions of this subsection (G).

7. A taxpayer that has received written permission from the tax administrator to use a reasonable method to effectuate an equitable allocation and apportionment of the taxpayer's income shall not have that permission revoked with respect to transactions and activities that have already occurred unless there has been a material change in, or a material misrepresentation of, the facts provided by the taxpayer upon which the tax administrator reasonably relied in approving a reasonable alternative method.

H. The definitions in this subsection apply throughout this section.

“Apportionable income” means the gross income of the business taxable under the service classifications of a city's gross receipts tax, including income received from activities outside the city if the income would be taxable under the service classification if received from activities within the city, less any exemptions or deductions available.

“Business activities tax” means a tax measured by the amount of, or economic results of, business activity conducted in a city or county within the United States or within a foreign country. The term includes taxes measured in whole or in part on net income or gross income or receipts. “Business activities tax” does not include a sales tax, use tax, or a similar transaction tax, imposed on the sale or acquisition of goods or services, whether or not denominated a gross receipts tax or a tax imposed on the privilege of doing business.

“Compensation” means wages, salaries, commissions, and any other form of remuneration paid to individuals for personal services that are or would be included in the individual's gross income under the federal Internal Revenue Code.

“Customer” means a person or entity to whom the taxpayer makes a sale or renders services or from whom the taxpayer otherwise receives gross income of the business.

“Customer location” means the following: ~~means the city or unincorporated area of a county where the majority of the contacts between the taxpayer and the customer take place.~~

(1) for a customer not engaged in business, if the service requires the customer to be physically present, where the service is performed;

(2) for a customer not engaged in business, if the service does not require the customer to be physically present: (a) the customer's residence; or (b) if the customer's residence is not

known, the customer's billing/mailing address;

(3) for a customer engaged in business: (a) where the services are ordered from; (b) at the customer's billing/mailing address if the location from which the services are ordered is not known; or (c) at the customer's commercial domicile if none of the above are known.

"Individual" means any individual who, under the usual common law rules applicable in determining the employer-employee relationship, has the status of an employee of that taxpayer.

"Primarily assigned" means the business location of the taxpayer where the individual performs his or her duties.

"Service taxable income or service income" means gross income of the business subject to tax under either the service or royalty classification.

"Tax period" means the calendar year during which tax liability is accrued. If taxes are reported by a taxpayer on a basis more frequent than once per year, taxpayers shall calculate the factors for the previous calendar year for reporting in the current calendar year and correct the reporting for the previous year when the factors are calculated for that year, but not later than the end of the first quarter of the following year.

~~"Taxable in the customer location" means either that a taxpayer is subject to a gross receipts tax in the customer location for the privilege of doing business, or that the government where the customer is located has the authority to subject the taxpayer to gross receipts tax regardless of whether, in fact, the government does so.~~

I. Assignment or apportionment of revenue under this section shall be made in accordance with and in full compliance with the provisions of the interstate commerce clause of the United States Constitution where applicable. (Ord. 807 § 1 (part), 2012; Ord. 755B (part), 2009)

3.18.110 Printing and publishing activities.

Notwithstanding RCW 35.102.130, gross income from the activities of printing, and of publishing newspapers, periodicals, or magazines, shall be allocated to the principal place in this state from which the taxpayer's business is directed or managed. As used in this section, the activities of printing, and of publishing newspapers, periodicals, or magazines, have the same meanings as attributed to those terms in RCW 82.04.280(1) by the Department of Revenue. (Ord. 755B (part), 2009)
