# Resolution declaring Lead Agency and Negative Declaration for Local Law # Amendment to the Development Code Allowed Use Table

SUBJECT: RESOLUTION RECOGNIZING TYPE 1 SEQR ACTION

WHEREAS, the Village of Saranac Lake adopted the Village of Saranac Lake Unified Development Code, and,

WHEREAS, amendments to the Development Code are allowed for purposes of public necessity, convenience, and the general welfare, and,

WHEREAS, the Board has received a draft amendment to the Village Development Code, and,

WHEREAS, in consideration of the circumstances as described above, the Village Board needs to amend the Village of Saranac Lake Unified Development Code, and,

WHEREAS, the Saranac Lake Village Board of Trustees held a Public Hearing on Monday, September 25, 2023, to consider a Local Law amending the Village of Saranac Lake Unified Development Code, as more fully set forth in the text of the Local Law, and,

WHEREAS, the Board must evaluate all proposed actions submitted to it for its consideration that may affect the environment in light of the State Environmental Quality Review Act (SEQR) and the regulations promulgated thereunder, and,

WHEREAS, the required environmental assessment will be conducted by the Board, and,

WHEREAS, the Board desires to serve and act as the lead agency for an uncoordinated review of the proposed action for the purposes of SEQR, and,

WHEREAS, this project is listed as a Type 1 action for the purposes of SEQRA as it adopts amendments to the Development Code, and,

**NOW, THEREFORE BE IT RESOLVED,** the Board makes the following findings and determinations with respect to the proposed project:

(1) The proposed Development Code amendments have been determined not to have a significant impact on the environment and a negative declaration is issued.

## Full Environmental Assessment Form Part 1 - Project and Setting

## **Instructions for Completing Part 1**

Part 1 is to be completed by the applicant or project sponsor. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification.

Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information; indicate whether missing information does not exist, or is not reasonably available to the sponsor; and, when possible, generally describe work or studies which would be necessary to update or fully develop that information.

Applicants/sponsors must complete all items in Sections A & B. In Sections C, D & E, most items contain an initial question that must be auswered either "Yes" or "No". If the answer to the initial question is "Yes", complete the sub-questions that follow. If the answer to the initial question is "No", proceed to the next question. Section F allows the project sponsor to identify and attach any additional information. Section G requires the name and signature of the applicant or project sponsor to verify that the information contained in Part 1 is accurate and complete.

#### A. Project and Applicant/Sponsor Information.

Name of Action or Project:		
Amendment to the Development Code-Add Allowed Use		
Project Location (describe, and attach a general location map):		
District C3		
Brief Description of Proposed Action (include purpose or need):	<u> </u>	
Addition of allowed use of Amusement and Recreation Services to Schedule #1 for D	istrict C3 subject to Issuance of 8	Special Use Permit
Name of Applicant/Sponsor:	Telephone: 518-891-	4150

into any existi If Yes:  i. Identify the w	ng wetland, waterb	ody, shoreline, bea y which would be	ch or adjacent area? affected (by name, w	rease in size of, or encroachment	Yes No
description):					

ii. Describe how the proposed action would affect that waterbody or wetland, e.g. excavation, fill, placer	nent of structures, or
alteration of channels, banks and shorelines. Indicate extent of activities, alterations and additions in se	quare feet or acres:
	7
iii. Will the proposed action cause or result in disturbance to bottom sediments? If Yes, describe:	□Yes □No
iv. Will the proposed action cause or result in the destruction or removal of aquatic vegetation?	□Yes□No
If Yes:	
acres of aquatic vegetation proposed to be removed:	
expected acreage of aquatic vegetation remaining after project completion:	
purpose of proposed removal (e.g. beach clearing, invasive species control, boat access):	
proposed method of plant removal:	
<ul> <li>if chemical/herbicide treatment will be used, specify product(s):</li> </ul>	
v. Describe any proposed reclamation/mitigation following disturbance:	
c. Will the proposed action use, or create a new demand for water?	□Yes□No
If Yes:  i. Total anticipated water usage/demand per day:  gallons/day	
i. Total anticipated water usage/demand per day: gallons/day ii. Will the proposed action obtain water from an existing public water supply?	□Yes□No
If Yes:	1000
Name of district or service area:	
Does the existing public water supply have capacity to serve the proposal?	☐ Yes☐ No
Is the project site in the existing district?	☐ Yes ☐ No
Is expansion of the district needed?	☐ Yes ☐ No
Do existing lines serve the project site?	☐Yes☐No
iii. Will line extension within an existing district be necessary to supply the project?	□Yes □No
If Yes:	
Describe extensions or capacity expansions proposed to serve this project:	
	<u> </u>
Source(s) of supply for the district:	☐ Yes☐No
iv. Is a new water supply district or service area proposed to be formed to serve the project site? If, Yes:	☐ Tes⊟No
Applicant/sponsor for new district:	
Date application submitted or anticipated:	
Proposed source(s) of supply for new district:	
v. If a public water supply will not be used, describe plans to provide water supply for the project:	
vi. If water supply will be from wells (public or private), what is the maximum pumping capacity:	_gallons/minute.
d. Will the proposed action generate liquid wastes?	☐ Yes ☐No
If Yes:	
<ul> <li>i. Total anticipated liquid waste generation per day: gallons/day</li> <li>ii. Nature of liquid wastes to be generated (e.g., sanitary wastewater, iudustrial; if combination, describe a</li> </ul>	
ii. Nature of liquid wastes to be generated (e.g., sanitary wastewater, industrial; if combination, describe a	
approximate volumes or proportions of each):	
iii. Will the proposed action use any existing public wastewater treatment facilities?	□Yes□No
If Yes:	
Name of wastewater treatment plant to be used:	
<ul> <li>Name of district:</li> <li>Does the existing wastewater treatment plant have capacity to serve the project?</li> </ul>	□Yes□No
<ul> <li>Does the existing wastewater treatment plant have capacity to serve the project;</li> <li>Is the project site in the existing district?</li> </ul>	□ Yes □No
Is expansion of the district needed?	□Yes □No
and Companion of the another investor.	

<ul> <li>Do existing sewer lines serve the project site?</li> </ul>	☐ Yes ☐ No
<ul> <li>Will a line extension within an existing district be necessary to serve the project?</li> </ul>	□Yes□No
If Yes:	
Describe extensions or capacity expansions proposed to serve this project:	
iv. Will a new wastewater (sewage) treatment district be formed to serve the project site?	□Yes□No
If Yes:	
Applicant/sponsor for new district:     Date application submitted or anticipated:	
What is the receiving water for the wastewater discharge?	——————————————————————————————————————
v. If public facilities will not be used, describe plans to provide wastewater treatment for the project, including spectreceiving water (name and classification if surface discharge or describe subsurface disposal plans):	cifying proposed
vi. Describe any plans or designs to capture, recycle or reuse liquid waste:	
e. Will the proposed action disturb more than one acre and create stormwater runoff, either from new point	□Yes□No
sources (i.e. ditches, pipes, swales, curbs, gutters or other concentrated flows of stormwater) or non-point	
source (i.e. sheet flow) during construction or post construction?	
If Yes:	
i. How much impervious surface will the project create in relation to total size of project parcel?	
Square feet or acres (impervious surface) Square feet or acres (parcel size)	
ii. Describe types of new point sources.	
iii. Where will the stormwater runoff be directed (i.e. on-site stormwater management facility/structures, adjacent p	properties,
groundwater, on-site surface water or off-site surface waters)?	
If to surface waters, identify receiving water bodies or wetlands:	
• Will stormwater runoff flow to adjacent properties?  iv. Does the proposed plan minimize impervious surfaces, use pervious materials or collect and re-use stormwater?	□Yes□No □Yes□No
	□Yes □No
f. Does the proposed action include, or will it use on-site, one or more sources of air emissions, including fuel combustion, waste incineration, or other processes or operations?	□ 1es□No
If Yes, identify:	
i. Mobile sources during project operations (e.g., heavy equipment, fleet or delivery vehicles)	
ii. Stationary sources during construction (e.g., power generation, structural heating, batch plant, erushers)	-
iii. Stationary sources during operations (e.g., process emissions, large boilers, electric generation)	
g. Will any air emission sources named in D.2.f (above), require a NY State Air Registration, Air Facility Permit,	□Yes □No
or Federal Clean Air Act Title IV or Title V Permit?	
If Yes:	
i. Is the project site located in an Air quality non-attainment area? (Area routinely or periodically fails to meet	□Yes□No
ambient air quality standards for all or some parts of the year)  ii. In addition to emissions as calculated in the application, the project will generate:	
Tons/year (short tons) of Carbon Dioxide (CO <sub>2</sub> )	
• Tons/year (short tons) of Carbon Dioxide (CO <sub>2</sub> ) • Tons/year (short tons) of Nitrous Oxide (N <sub>2</sub> O)	
Tons/year (short tons) of Perfluorocarbons (PFCs)	
Tons/year (short tons) of Sulfur Hexafluoride (SF <sub>6</sub> )	
Tons/year (short tons) of Carbon Dioxide equivalent of Hydroflourocarbons (HFCs)	
Tons/year (short tons) of Hazardons Air Pollutants (HAPs)	

h. Will the proposed action generate or emit methane (inclu-	ding but not limited to sewage treatment plants.	∏Yes□No
landfills, composting facilities)?	dans, out not mind to so age was a series,	
If Yes:		
i. Estimate methane generation in tons/year (metric):		
ii. Describe any methane capture, control or elimination me	easures included in project design (e.g., combustion to g	enerate heat or
electricity, flaring):		<del> </del>
	many processing to the second of the second	DVacDNa
i. Will the proposed action result in the release of air polluta	ints from open-air operations or processes, such as	□Yes□No
quarry or landfill operations?  If Yes: Describe operations and nature of emissions (e.g., di	iesel exhaust rock particulates/dust):	
11 Tes. Describe operations and nature of clinissions (e.g., di	reser exitation, fook particulates desty.	
* 17/11 di	tenffic above present levels or concepts substantial	☐Yes ☐No
j. Will the proposed action result in a substantial increase in new demand for transportation facilities or services?	trame above present levels of generale substantial	
If Yes:		
i. When is the peak traffic expected (Check all that apply)	: Morning Evening Weekend	
☐ Randomly between hours of to	ck trips/day and type (e.g., semi trailers and dump truck	s):
iii. Parking spaces: Existing 1	Proposed Net increase/decrease	
iv. Does the proposed action include any shared use parkin		□Yes□No
v. If the proposed action includes any modification of exi-		access, describe:
vi. Are public/private transportation service(s) or facilities a	available within ½ mile of the proposed site?	☐Yes ☐ No
vii Will the proposed action include access to public transpo	ortation or accommodations for use of hybrid, electric	∐Yes ☐ No
or other alternative fueled vehicles?		
viii. Will the proposed action include plans for pedestrian or	bicycle accommodations for connections to existing	☐Yes☐No
pedestrian or bicycle routes?		
k. Will the proposed action (for commercial or industrial pro	ojects only) generate new or additional demand	□Yes□No
for energy?		
If Yes:	Ndi	
i. Estimate annual electricity demand during operation of t	ne proposed action:	
ii. Anticipated sources/suppliers of electricity for the project	et (e.g., on-site combustion, on-site renewable, via grid/l	ocal utility, or
other):		
iii. Will the proposed action require a new, or an upgrade, to	an existing substation?	☐Yes☐No
Hours of operation. Answer all items which apply.		-
i. During Construction:	ii. During Operations:	
Monday - Friday:	Monday - Friday:	
Saturday:	Saturday:	
Sunday:	Sunday:	
Holidays:	Holidays:	

<ul> <li>m. Will the proposed action produce noise that will exceed existing ambient noise levels during construction, operation, or both?</li> <li>If yes:</li> <li>i. Provide details including sources, time of day and duration:</li> </ul>	□Yes□No
<ul> <li>ii. Will the proposed action remove existing natural barriers that could act as a noise barrier or screen?</li> <li>Describe:</li></ul>	□Yes□No
n. Will the proposed action have outdoor lighting?  If yes:  i. Describe source(s), location(s), height of fixture(s), direction/aim, and proximity to nearest occupied structures:	□Yes□No
i. Will proposed action remove existing natural barriers that could act as a light barrier or screen?  Describe:	□Yes□No
o. Does the proposed action have the potential to produce odors for more than one hour per day?  If Yes, describe possible sources, potential frequency and duration of odor emissions, and proximity to nearest occupied structures:	□Yes□Ne
b. Will the proposed action include any bulk storage of petroleum (combined capacity of over 1,100 gallons) or chemical products 185 gallons in above ground storage or any amount in underground storage?  If Yes:  I. Product(s) to be stored  II. Volume(s) per unit time (e.g., month, year)  III. Generally, describe the proposed storage facilities:	☐ Yes ☐ No
Will the proposed action (commercial, industrial and recreational projects only) use pesticides (i.e., herbicides, insecticides) during construction or operation?  f Yes:  i. Describe proposed treatment(s):	☐ Yes ☐No
<ul> <li>ii. Will the proposed action use Integrated Pest Management Practices?</li> <li>Will the proposed action (commercial or industrial projects only) involve or require the management or disposal of solid waste (excluding hazardous materials)?</li> <li>if Yes:         <ul> <li>i. #### Agency Use Only [If applicable]

# Full Environmental Assessment Form Part 2 - Identification of Potential Project Impacts

	Agency Use Only [11 applicable]
Project:	Amendment to Dev Code-Allowed Use
Date:	10/5/2023

Part 2 is to be completed by the lead agency. Part 2 is designed to help the lead agency inventory all potential resources that could be affected by a proposed project or action. We recognize that the lead agency's reviewer(s) will not necessarily be environmental professionals. So, the questions are designed to walk a reviewer through the assessment process by providing a series of questions that can be answered using the information found in Part 1. To further assist the lead agency in completing Part 2, the form identifies the most relevant questions in Part 1 that will provide the information needed to answer the Part 2 question. When Part 2 is completed, the lead agency will have identified the relevant environmental areas that may be impacted by the proposed activity.

If the lead agency is a state agency and the action is in any Coastal Area, complete the Coastal Assessment Form before proceeding with this assessment.

#### Tips for completing Part 2:

- · Review all of the information provided in Part 1.
- · Review any application, maps, supporting materials and the Full EAF Workbook.
- Answer each of the 18 questions in Part 2.
- If you answer "Yes" to a numbered question, please complete all the questions that follow in that section.
- If you answer "No" to a numbered question, move on to the next numbered question.
- · Check appropriate column to indicate the anticipated size of the impact.
- Proposed projects that would exceed a numeric threshold contained in a question should result in the reviewing agency checking the box "Moderate to large impact may occur."
- The reviewer is not expected to be an expert in environmental analysis.
- If you are not sure or undecided about the size of an impact, it may help to review the sub-questions for the general
  question and consult the workbook.
- When answering a question consider all components of the proposed activity, that is, the "whole action".
- Consider the possibility for long-term and cumulative impacts as well as direct impacts.
- Answer the question in a reasonable manner considering the scale and context of the project.

1. Impact on Land Proposed action may involve construction on, or physical alteration of, the land surface of the proposed site. (See Part 1. D.1)  If "Yes", answer questions a - j. If "No", move on to Section 2.	<b>Z</b> NO		YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may involve construction on land where depth to water table is less than 3 feet.	E2d	0	
b. The proposed action may involve construction on slopes of 15% or greater.	E2f		0
c. The proposed action may involve construction on land where bedrock is exposed, or generally within 5 feet of existing ground surface.	E <b>2</b> a	_	0
d. The proposed action may involve the excavation and removal of more than 1,000 tons of natural material.	D2a	0	
e. The proposed action may involve construction that continues for more than one year or in multiple phases.	D1e	0	
f. The proposed action may result in increased erosion, whether from physical disturbance or vegetation removal (including from treatment by herbicides).	D2e, D2q		0
g. The proposed action is, or may be, located within a Coastal Erosion hazard area.	Bli		0
h. Other impacts:			0

2. Impact on Geological Features  The proposed action may result in the modification or destruction of, or inhib access to, any unique or unusual land forms on the site (e.g., cliffs, dunes, minerals, fossils, caves). (See Part 1. E.2.g)	rit <b>☑</b> NO		YES
If "Yes", answer questions a - c. If "No", move on to Section 3.	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. Identify the specific land form(s) attached:	E2g		0
b. The proposed action may affect or is adjacent to a geological feature listed as a registered National Natural Landmark.  Specific feature:	E3c	D	0
c. Other impacts:		П	П
3. Impacts on Surface Water  The proposed action may affect one or more wetlands or other surface water bodies (e.g., streams, rivers, ponds or lakes). (See Part 1. D.2, E.2.h)  If "Yes", answer questions a - 1. If "No", move on to Section 4.	✓no		YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may create a new water body.	D2b, D1h	П	
b. The proposed action may result in an increase or decrease of over 10% or more than a 10 acre increase or decrease in the surface area of any body of water.	D2b		0
c. The proposed action may involve dredging more than 100 cubic yards of material from a wetland or water body.	D2a	D	
d. The proposed action may involve construction within or adjoining a freshwater or tidal wetland, or in the bed or banks of any other water body.	E2h	0	
e. The proposed action may create turbidity in a waterbody, either from upland erosion, runoff or by disturbing bottom sediments.	D2a, D2h		0
f. The proposed action may include construction of one or more intake(s) for withdrawal of water from surface water.	D2c		
g. The proposed action may include construction of one or more outfall(s) for discharge of wastewater to surface water(s).	D2d	В	
h. The proposed action may cause soil erosion, or otherwise create a source of stormwater discharge that may lead to siltation or other degradation of receiving water bodies.	D2e		
<ol> <li>The proposed action may affect the water quality of any water bodies within or downstream of the site of the proposed action.</li> </ol>	E2h		0
<ul> <li>j. The proposed action may involve the application of pesticides or herbicides in or around any water body.</li> </ul>	D2q, E2h	0	
k. The proposed action may require the construction of new, or expansion of existing,	D1a, D2d		

wastewater treatment facilities.

1, Other impacts:		Œ	
4. Impact on groundwater  The proposed action may result in new or additional use of ground water, or may have the potential to introduce contaminants to ground water or an aquife (See Part 1. D.2.a, D.2.c, D.2.d, D.2.p, D.2.q, D.2.t)  If "Yes", answer questions a - h. If "No", move on to Section 5.	☑NO er.		YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may require new water supply wells, or create additional demand on supplies from existing water supply wells.	D2c	П	
b. Water supply demand from the proposed action may exceed safe and sustainable withdrawal capacity rate of the local supply or aquifer.  Cite Source:	D2c	0	٥
c. The proposed action may allow or result in residential uses in areas without water and sewer services.	D1a, D2c	0	
d. The proposed action may include or require wastewater discharged to groundwater.	D2d, E21	0	
e. The proposed action may result in the construction of water supply wells in locations where groundwater is, or is suspected to be, contaminated.	D2c, E1f, E1g, E1h	0	
f. The proposed action may require the bulk storage of petroleum or chemical products over ground water or an aquifer.	D2p, E21	0	0
g. The proposed action may involve the commercial application of pesticides within 100 feet of potable drinking water or irrigation sources.	E2h, D2q, E2l, D2c	0	
h. Other impacts:		0	0
	<u></u>		
5. Impact on Flooding The proposed action may result in development on lands subject to flooding. (See Part 1. E.2) If "Yes", answer questions a - g. If "No", move on to Section 6.	Ми		YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may result in development in a designated floodway.	E2i		
b. The proposed action may result in development within a 100 year floodplain.	E2j		
c. The proposed action may result in development within a 500 year floodplain.	E2k		
d. The proposed action may result in, or require, modification of existing drainage patterns.	D2b, D2e	0	o
e. The proposed action may change flood water flows that contribute to flooding.	D2b, E2i, E2j, E2k		
f. If there is a dam located on the site of the proposed action, is the dam in need of repair, or upgrade?	E1e		0

g.	Other impacts:			
6.	Impacts on Air The proposed action may include a state regulated air emission source. (See Part 1. D.2.f., D.2.h, D.2.g) If "Yes", answer questions a - f. If "No", move on to Section 7.	<b>∠</b> NO	· □	YES

# Full Environmental Assessment Form Part 3 - Evaluation of the Magnitude and Importance of Project Impacts and Determination of Significance

Part 3 provides the reasons in support of the determination of significance. The lead agency must complete Part 3 for every question in Part 2 where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.

Based on the analysis in Part 3, the lead agency must decide whether to require an environmental impact statement to further assess the proposed action or whether available information is sufficient for the lead agency to conclude that the proposed action will not have a significant adverse environmental impact. By completing the certification on the next page, the lead agency can complete its determination of significance.

#### Reasons Supporting This Determination:

To complete this section:

- Identify the impact based on the Part 2 responses and describe its magnitude. Magnitude considers factors such as severity, size or extent of an impact.
- Assess the importance of the impact. Importance relates to the geographic scope, duration, probability of the impact
  occurring, number of people affected by the impact and any additional environmental consequences if the impact were to
  occur.
- The assessment should take into consideration any design element or project changes.
- Repeat this process for each Part 2 question where the impact has been identified as potentially moderate to large or where
  there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse
  environmental impact.
- Provide the reason(s) why the impact may, or will not, result in a significant adverse environmental impact
- For Conditional Negative Declarations identify the specific condition(s) imposed that will modify the proposed action so that no significant adverse environmental impacts will result.
- Attach additional sheets, as needed.

Identify portions of EAF completed for this Project: Part 1
