- B. **MOBILE AUDIO VIDEO RECORDER (MAVR):** Refers to any system that captures audio and video signals capable of being worn, or installed in a vehicle, and that includes at minimum, a camera, microphone, and recorder. Body Worn Camera (BWC) is a MAVR device.

- D. RECORDED MEDIA - Audio-video signals recorded or digitally stored in the current MAVR storage software.

III. PRIVACY EXPECTATIONS AND PROHIBITED USE

- A. All recordings made by members on any Department-issued device at any time, and any recording made while acting in an official capacity of this Department, regardless of ownership of the device on which it was made, shall remain the property of the Department. Members shall have no expectation of privacy or ownership interest in the content of these recordings.
- B. Members are prohibited from using Department-issued portable recorders and recording media for personal use and are prohibited from making personal copies of recordings created while on-duty or while acting in their official capacity.

- E. No member of this Department may surreptitiously record a conversation of any other member of this department except with a court order or when lawfully authorized by the Chief of Police or the authorized designee for the purpose of conducting a criminal or administrative investigation.

IV. PROCEDURES

A. PROGRAM OBJECTIVES

The Department has adopted the use of MAVR's to accomplish the following objectives:

1. To enhance officer safety.
2. To accurately capture statements and events during the course of an incident.

3. To enhance the officer's ability to document and review statements and actions for both internal reporting requirements and for courtroom preparation/presentation.
4. To provide an impartial measurement for self-critique and field evaluation during recruitment and new officer training.
5. To capture visual and audio information for use in current and future investigations.

B. OFFICER RESPONSIBILITIES

1. Prior to going into service, each officer will properly equip themselves to record audio and video in the field by logging onto the current system (Evidence.com). At the end of the shift, each officer will follow the established procedures for providing the Department with any recordings and for labeling each video with an identification number (agency case number), title, and category. Only media identified and labeled with tracking numbers from the Cameron Police Department is to be used.
2. At the start of each shift, officers should log into evidence.com and ensure the MAVR system's operation is in accordance with Department operating procedures and training.
3. If the system is malfunctioning, the officer shall notify a supervisor verbally and contact the help desk.
 - a) The supervisor shall determine if the unit shall be placed in service without an operating MAVR.

C. ACTIVATION OF THE MAVR

1. The MAVR system is designed to turn on whenever the unit's emergency lights are activated or the gun lock is opened. The MAVR system can also be turned on manually.
2. It is not necessary for officers to volunteer the fact that the enforcement contact is being recorded. However, if asked, officers shall advise persons whether the MAVRs are recording.
3. Officers are not required to cease or initiate recording based on the demand of a citizen, involved party, or suspect.

D. REQUIRED ACTIVATION OF THE MAVR

1. This policy is not intended to describe every possible situation in which the MAVR system may be used, although there are many situations where its use is appropriate. An officer may activate the system at any time the officer believes appropriate or valuable to document an incident.

In some circumstances, it is not possible to capture images of the incident due to conditions or the camera's location. However, the audio portion can be valuable evidence and is subject to the same activation requirements as the MAVR. The MAV system should be activated in any of the following situations:

- a) All field contacts involving actual or potential criminal conduct within video or audio range.
 - 1) Traffic stops (to include, but not limited to, traffic violations, stranded motorist assistance, and all crime interdiction stops).
 - 2) Priority responses.
 - 3) Vehicle pursuits.
 - 4) Suspicious vehicles
 - 5) Arrests
 - 6) Vehicle searches
 - 7) Physical or verbal confrontations
 - 8) Use of force
 - 9) OWI investigations, including field sobriety tests
 - 10) Prisoner transports.
 - 11) Crimes in progress.
 - 12) Responding to an in-progress call
- b) All self-initiated activity in which an officer would normally notify dispatch.
- c) Any call for service involving a crime where the recorder may aid in the apprehension and/or prosecution of a suspect:
 - 1) Domestic abuse calls
 - 2) Disturbance of peace calls
 - 3) Offenses involving violence or weapons
- d) Any other contact that becomes adversarial after the initial contact, in a situation that would not otherwise require recording.

- e) Any other circumstance where the officer believes that a recording of an incident would be appropriate.

E. CESSATION OF RECORDING

1. Once activated, the MAVR system should remain on until the incident has concluded. For purposes of this section, the conclusion of an incident has occurred when all arrests have been made, arrestees have been transported, and all witnesses and victims have been interviewed. Recording may cease if an officer is simply waiting for a tow truck or a family member to arrive, or in other similar situations.

F. WHEN ACTIVATION IS NOT REQUIRED

1. Activation of the MAVR system is not required when exchanging information with other officers or during breaks, lunch periods, when not in service, or actively on patrol.
2. Officers using the digital transmitters that are individually synchronized to their individual MAVR shall activate both audio and video recordings when responding in a support capacity to obtain additional perspectives of the incident scene.
3. Officers should review the recordings when preparing written reports of events to help ensure accuracy and consistency of accounts.
4. Except for police radios, officers shall ensure that the volume from other electronic devices within the police vehicle does not interfere with MAVR recordings.
5. Officers shall not erase, alter, reuse, modify, or tamper with MAVR recordings.
6. When the MAVR is activated to document an event, it should not be deactivated until the event has been concluded unless:
 - a) The incident or event is of such duration that the MAVR may be deactivated to conserve recording times; and
 - b) The officer does not reasonably believe that deactivation will result in the loss of critical documentary information; and
 - c) The intention to stop the tape has been noted by the officer either verbally or in a written notation.
