We are very pleased to introduce Baseline!

Baseline is a permitting software made by users for users.

When applying for a permit, applicants can utilize the **map**
to confirm they have the correct address!

Applicants are able to track the process of their applications:

Submitted

In Review

Issued

Closed

Not closed

Each applicant is able to see all the permits they have applied for over time and the status of each one. They can see if the permits have all been inspected and closed, or if any are still open that need to be inspected.

If you are a jurisdiction member, you can see what permits are in queue, what the status of each permit is, or even if it still needs to be paid for.

Baseline is being utilized in Oak Grove and Linwood Township.

More jurisdictions plan to start using Baseline in 2024.

To find out more about *Baseline,*
