Rademan & Associates

Dreams Have Consequences

- What are we, what do we want to be?
 - Small Town & Great Resort
 - Preserving sense of community
 - Preserving nature
 - Great ski area
 - Prosperous, year-round diverse economy
- Are we already there, or can we get there from here?
 - Can you preserve what's here?

Rademan & Associates

The Great Irony

If we want things to stay as they are, many things will have to change

Rademan & Associates

Resistance to Change

- Tradition is threatened
- Perceived as illogical: Costs seem greater than benefits
- Perceived as self-serving
- Lacks clear intention and direction
- Brings on fear of the unknown
- Positions are threatened

Rademan & Associates

Taking Stock: An Honest Appraisal

SWOT Analysis

- **S** = Strengths
- **W** = Weaknesses
- **O** = Opportunities
- **T** = Threats

Rademan & Associates

Resort Town Challenges

- Affordability
- Economic Meltdown
- Traffic & Congestion
- Growth & Development
- Loss of Character & Diversity
- Sustainability & Global Warming

Rademan & Associates

Re-Thinking Alta Myles Rademan

Competitive Advantages

- Snow
- Terrain
- Beauty
- History
- Proximity to Salt Lake City
- People who care very deeply

Rademan & Associates

The Alta Ideal

- Timeless & historical
- Natural & beautiful
- Funky & inexpensive
- Un-hyped & un-gentrified
- Skiing the 'way it used to be'
- Cantankerous & idiosyncratic

Rademan & Associates

Underbelly of Alta Ideal

- Stodgy, shabby & unchanging
- Hard to live in
- Lack of services
- Losing market share
- Deteriorating infrastructure
- Lack of community cohesion

Rademan & Associates

Rademan & Associates

Leave it alone!

?%

- Don't change a thing

Needs a facelift

?%

- Fix this town up but maintain 'funky' spirit

'Nuke it' & start over!

?%

- Need major renovations & changes for 21st century

Rademan & Associates

The most I can do is hold up a mirror so you can better see how you see yourselves and how others see you

Rademan & Associates

Re-Thinking Alta

Myles Rademan

As the base facilities zone slowly gets old and is replaced and/or sold it is an opportunity to refine what we have...

The planning commission has always just responded to ideas and requests but has never done much planning...

A summer economy is inevitable especially when someone over-pays for a hotel property and will want more than 120 days / year to try and make it pay...

Rademan & Associates

To me, Alta looks like it did when I started skiing in 1949. Many residents and visitors like it that way. But meanwhile the world is passing us by. I know that some Alta visitors have gone to Park City / Deer Valley for the quality experience of lodging, food and nightlife.

Rademan & Associates

I would like to see an Alta that is so charming that it's a reason to come visit year 'round. I would like to see all the lodges blown up and replaced with contemporary and traditional structures (like Stein's on one hand and the Josef in Prague (ultra glass) on the other). I'd like to see the mine dumps leveled and reclaimed. I'd like to see a no-vehicle main street that wanders from the Peruvian Lodge to the bottom of Albion Basin complete with restaurants, shops, etc.

Rademan & Associates

The biggest problem I see is making travel painless. It would be nice if we could 'shed' the highway to reduce the avalanche problem and address the 'red light parade' of cars every time it snows...

A lift across the road would also help so we could have skiing on the other side.

As far as lodging, we don't fill up the lodges now, so the best thing to do would be to allow the current lodges to expand if demand warrants it.

Rademan & Associates

Let's face facts: Alta is severely constrained by topography and that's not going to change. There are only so many available building pads and these should be allowed to max out, modernize and spruce up to meet demand. Our snow and terrain make this a very special place. It was made for skiing. It's too steep for most people to hike or mountain bike, so winter is our season and we should pay more attention to it. We live off snow!

Rademan & Associates

*The majority of the people who do not want change live in SLC or elsewhere and do not live in Alta 12 months of the year- 7 days a week. The people that live here do not want a **TON** of change but would not mind some year round amenities (like a cup of coffee) and opportunities. Or even a nice sign that says "Welcome to Alta". Some upgrades are needed to do this...Some ideas are feasible and some are not.*

Re-Thinking Alta

Myles Rademan

One difficulty we have with change in Alta is that many up here have the "We can't do that" attitude. It is very discouraging. I realize and know every hill and obstacle that is here in Alta. They are big but there have to be answers.

Rademan & Associates

Rademan & Associates

I've always been in favor of trying new things to improve. Our old guests are dying off and Alta has lost its edge. We're a resort and must stay up with the times.

There are many old animosities and long memories. With new leadership we should get over them, start to dialogue, look to the future and regain our momentum.

Let's not be afraid to embrace more density, and look at ideas like the 'Interconnect', but our competitive advantage is making our guests feel welcome on a first name basis.

Rademan & Associates

Nobody ever seems to forget where the hatchet is buried

Rademan & Associates

With 80% public land Alta doesn't need a big grandiose plan or more visioning, we just need practical facility plans.

What we need most is to focus on what is 'doable' and muster the will power to get on with it.

It would help if we could get rid of all the lawsuits over development that saps so much of our time, energy and money.

Rademan & Associates

Alta is shaped by its geology, geography and terrain. It is pretty well built-out and constrained, but it would be nice to have a new lodge and upgrade existing properties. But our season is so short and our population and tax base so small that it's hard to justify major investments. So I think we've done pretty well considering our resources.

We're really a 'company town' and skiing is our only viable business, but it would be great to get some other investors building a new base village, though it's really hard here for young entrepreneurs.

Secret # 13
Hope & Do Something About It

Rademan & Associates

The Greatest Vision Without Action Is Hallucination

Rademan & Associates

The Widest Chasm

Knowing **Doing**

Rademan & Associates

Reality Check for Alta

- Can't have it all
- Change happens whether you want it or not
- Can't freeze-dry the present
- Pay attention to new perspectives
- Growth & development is both good & bad
- There are winners & losers
- Stagnation equals death

Rademan & Associates

More Realities

- Doing nothing is doing something
- Denial is never enough
- There is wisdom in holding hands
- Dreams compete in the marketplace of ideas
- We get the towns & landscapes we believe in
- Protection takes regulation
- There is no guarantee of success

Rademan & Associates

Alta's Future

- Develop guiding principles for 2020
- Concentrate on a basketful of small important aesthetic improvements
 - Entry statement
 - Flowers & water features
 - Coordinated signing
- Look for a major success
 - New community center? But where?
- Ask yourselves whether you can thrive in the future if things stay as they are
