

ELECTRICAL CODE 16.02

16.02 **DEFINITIONS.** In the interpretation and enforcement of this chapter, the following definitions shall apply:

- (1) **ELECTRICAL SYSTEM.** All wires, equipment or devices installed for the purpose of conducting or safeguarding electrical current at all voltages.
- (2) **ELECTRICAL WORK.** Any act in connection with the installing, altering or maintaining of electrical systems, which act ordinarily requires the use of tools.
- (3) **WIRING.** All conductors and all other devices incidental to the safe conduction of electrical current.
