# CTH T Corridor Layout and Mapping

## Public Informational Meeting #2

---

# The Purpose

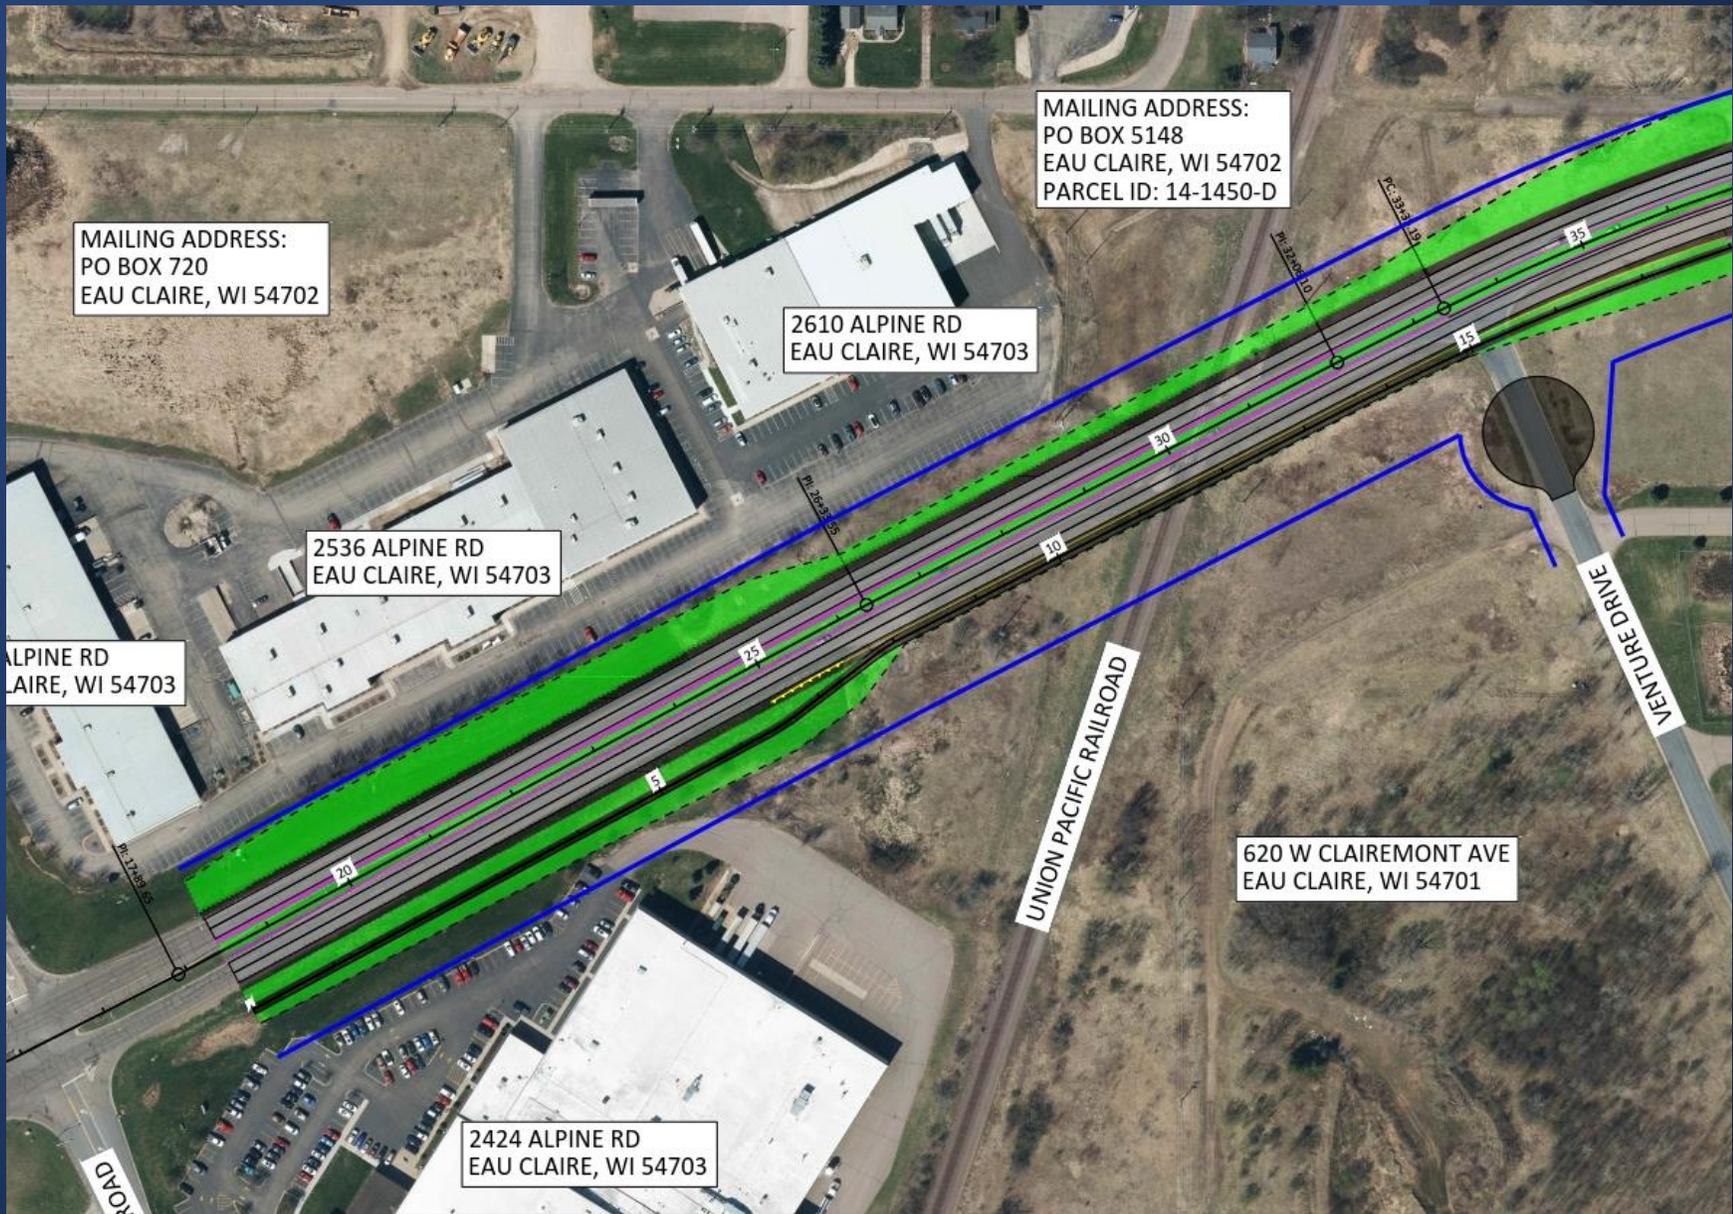

The purpose of the proposed project is to improve the roadway safety, provide for well-planned access to the corridor, provide multimodal accommodations, increase corridor capacity, and spur economic development.

# The Need

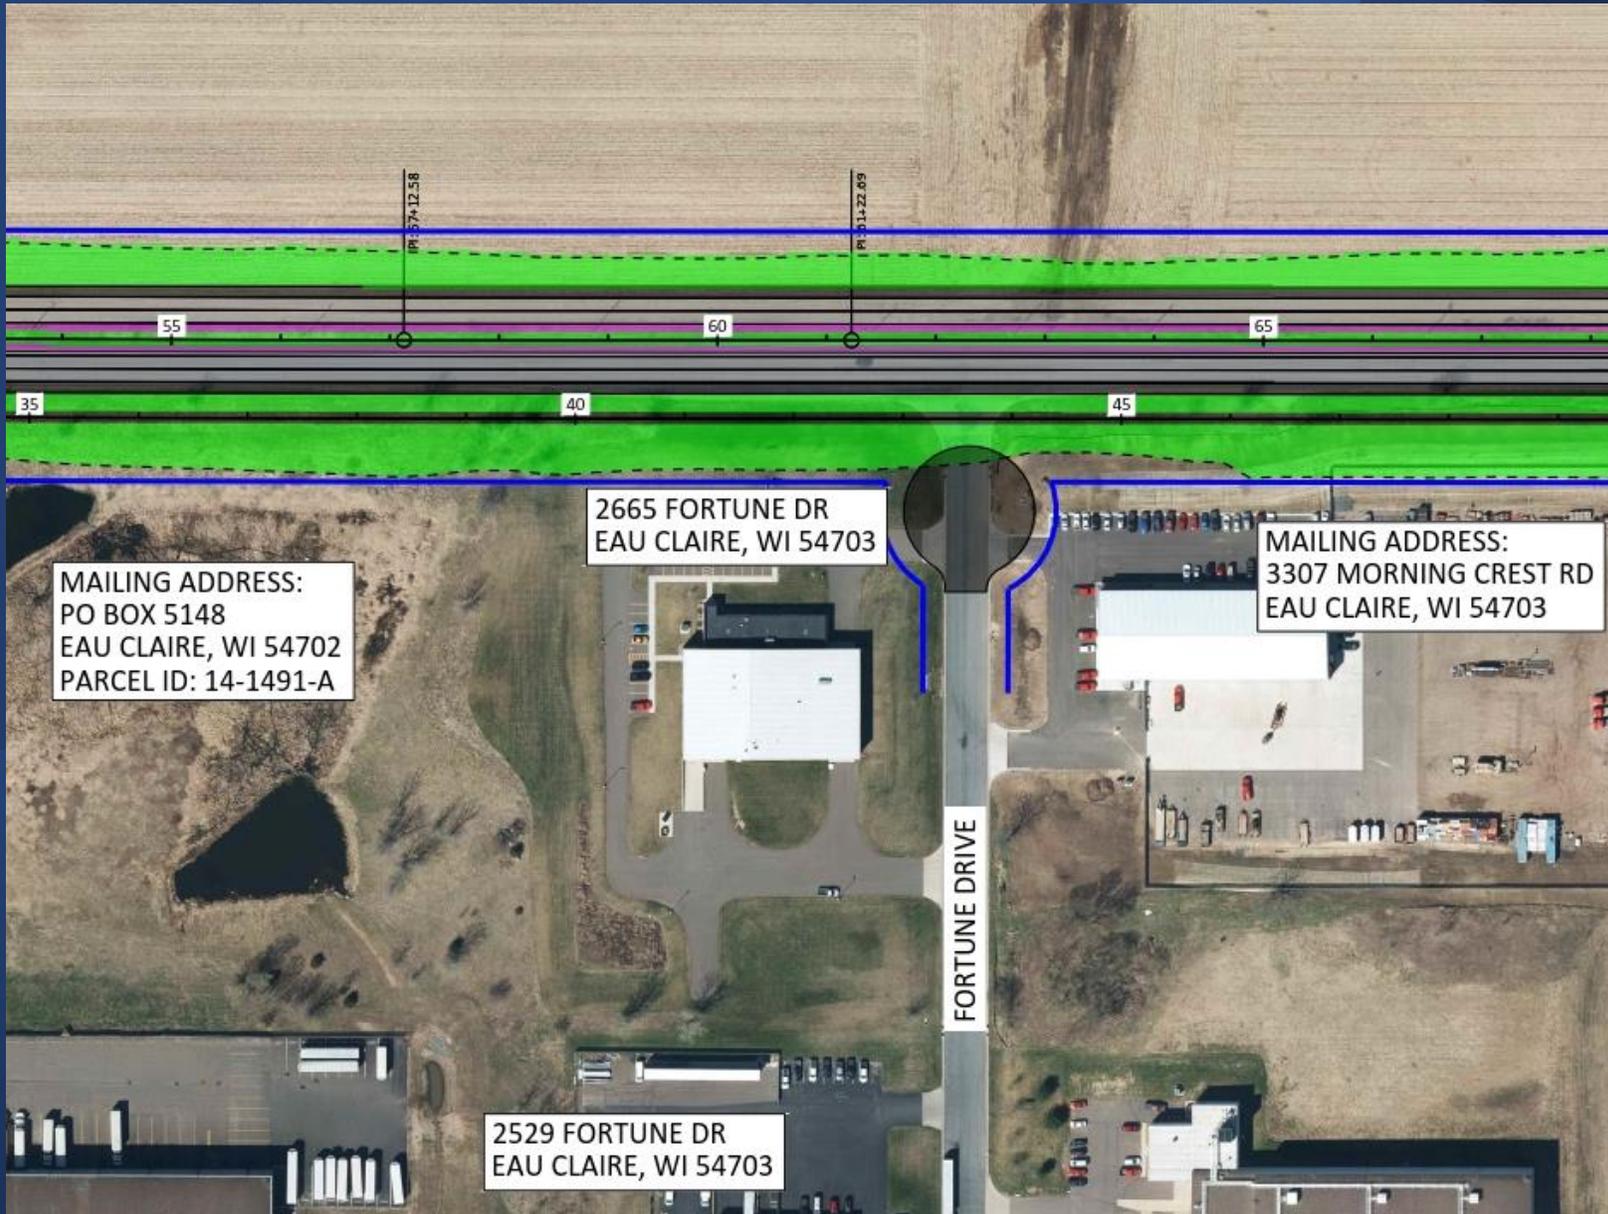

CTH T is currently designated as an oversize overweight (OSOW) Truck Route. With the increase in development along this corridor, along with a total of 55 access points consisting of sideroads, field entrances and private entrances sporadically intersect along the 3.45-mile section of CTH T the need of future access management and corridor planning is important for safe and efficient utilization of this highway corridor.

# Corridor Mapping and Platting Process

1. Final Alternate Selection
2. Preparation of Corridor Mapping Plat
3. Public Hearing/Meeting
4. Approval of Corridor Mapping Plat
5. Filing of Corridor Mapping Plat With County Clerk

# Next Steps

- Selection of the Final Alternate by the Corridor Committee (Completed by End of September 2021).
- Present the Final Alternate to Stakeholder's Board/Committee (Completed by End of October 2021).
- Preparation of Corridor Mapping Plat (Completed by End of December 2021).
- Recording of Final Corridor Mapping Plat (Completed by End of January 2022).
- Design/Construction of this project will not begin until State/Federal funding has been received. It is not feasible for this project to be locally funded 100%. Currently, there is no timeline for when funding will be received.

# Comment Card

Public Involvement Meeting Alternate Choice Form

Project: CTH T Mapping

September 20, 2021

Your input is welcomed and appreciated throughout the process and assists us develop a project that serves the transportation needs of the traveling public and the local community.
