

**RESOLUTION 2026-2
DUST SUPPRESSANT POLICY**

WHEREAS, the Town Board ("Board") of Mantrap Township ("Town") is the road authority and provides maintenance for approximately 29.4 miles of road in the Town;

WHEREAS, the Board, as the road authority, provides for dust suppressant on the town roads it has designated;

WHEREAS, the Board secures its dust suppressant services through Hubbard County;

WHEREAS, the Board determines it is in the best interest of the Town to develop a policy to set out how dust suppressant will be applied on town roads considering the Town's limited resources;

NOW, THEREFORE, BE IT RESOLVED, the Board hereby adopts the following as the dust suppressant policy for the Town;

BE IT FURTHER RESOLVED, that any property owner applying dust suppressant on township roads shall follow this policy.

1. POLICY CONSIDERATIONS

This policy defines guidelines and procedures for Mantrap Township property owners to apply dust suppressant for residential treatment of untreated township roads. Mantrap Township, with Hubbard County, applies DuraBlend to limited areas to improve the road surface based on cost, traffic volume, and maintenance requirements. The Township does not apply DuraBlend strictly for the purpose of dust control. Property owners may request to apply dust suppressant either through contract/agreement with the Hubbard County contractor (EnviroTech 1-800-369-3878) or by the property owner.

2. GUIDELINES

- a. Mantrap Township, as the road authority, has final approval of any determination to apply dust control.
- b. Regular maintenance (such as grading) will continue, as needed, on the roads, regardless of dust suppressant application.
- c. Mantrap Township does not guarantee effectiveness of the dust suppressant.
- d. Property owners are responsible for all labor and material costs for roads/areas listed in the application.
- e. Upon approval for dust suppressant, property owners are responsible for marking/flagging road areas for the contractor.
- f. Application of dust suppressant must not extend beyond the frontage of the applicant's parcel(s) unless permission has been received from adjacent

parcel(s) and those property owner(s) are listed, with contact information, on the application. Supervisors may contact the adjacent property owners to verify.

- g. Application of dust suppressant must not exceed Minnesota Department of Transportation guidelines.
- h. Any Mantrap Township supervisor can approve an application.

3. PROCEDURES

- a. Submit application for either contractor or property owner application of dust suppressant.
- b. A supervisor will review the application and notify the applicant of approval/disapproval.
- c. The status of applications will be recorded at the next township board meeting.

4. REVIEW OF POLICY

The Board will review this policy annually, taking into consideration any changing conditions in the Town's circumstances, any complaints or comments received, and the experience learned from undertaking dust suppressant procedures.

Adopted this 8th day of June, 2026.

BY THE TOWN BOARD

Town Board Chair

Kimberly A. Olson

Attest: _____
Town Clerk
