Project Supervisor:	Jim Simpson, WisDOT
For more information, contact:	Hannah Punzel, WisDOT Project Communications Manager (608) 246-7907, hannah.punzel@dot.wi.gov

The Wisconsin Department of Transportation (WisDOT) is preparing to complete roadway construction on WIS 92 between East Avenue in Belleville and US Highway 14 just East of Brooklyn. Payne and Dolan, Inc. is the General Contractor on the project, and Batterman is the engineering firm appointed by WisDOT to manage the project. The work is tentatively scheduled to start in late July 2025. This construction project will include asphalt pavement resurfacing, new concrete curb and sidewalk at intersections with pedestrian crossings.

The project team has scheduled an informational meeting before construction to discuss construction operations, closures, local access, project timelines, etc. There will be a question-and-answer session following project overview.

We encourage property and business owners, interested citizens, and other stakeholders to attend the meeting. If you cannot attend and would like to stay informed of the construction project's progress, please send your email address to Jon Olinger, jolinger@rhbatterman.com, to be placed on a distribution list for our weekly construction update email. This email will detail the construction progress and upcoming operations.

We look forward to meeting with you on Tuesday, July 15, 2025, at 5:00 pm.
