### Required Inspections

Subcontractors shall request inspections for their own work by contacting **3C INSPECT LLC** at 608-558-6055. Failure to give proper inspection notification may result in fines. The Building Permit Applicant (signature on application) is responsible for verifying that all required inspections have been made.

**EROSION CONTROL INPECTION** to be completed prior to footing inspection. Perimeter erosion control measures shall be placed withing 24 hrs. after beginning excavation. Additional inspections for erosion control may be performed.

**FOOTING INSPECTION** to be completed after forming, required reinforcement (rebar) and drain tile bleeders. Any rebar over 20 ft in length shall be connected to the dwelling electrical service per the requirements of the NEC.

**FOUNDATION INSPECTION** to be completed after forms are removed.

**FOUNDATON DAMPPROOFING, EXTERIOR INSULATION AND DRAIN TILE INSPECTION** to be completed before backfilling the foundation.

**BASEMENT FLOOR AREA INSPECTION** to be completed for any underfloor plumbing, electrical or HVAC and required underfloor vapor retarder.

**ROUGH INSPECTION** to be completed for each category before work is covered or concealed.

**BUILDING FRAMING**

**ELECTRICAL**

**PLUMBING**

**HVAC**

**INSULATION INSPECTION** to be completed after insulation and vapor barrier are in place, but before they are covered or concealed.

**FINAL INPECTION** to be completed for each category below after all work is completed, but before occupancy.

**BUILDING**

**ELECTRICAL**

**PLUMBING**

**HVAC**

Construction may proceed if the inspection has not taken place by the end of the second business day following the day of notification or as otherwise agreed between the applicant and the municipality.
