**Vote absentee
at your clerk's office**

In-Person Absentee Voting

You can soon cast your ballot before Election Day by voting an in-person absentee ballot at our office (Village Hall – 210 Commercial St., Brooklyn, WI)!

Our hours will be:

Oct. 22 through 24 from 7 am to 5 pm

Oct. 28 through 31 from 7 am to 5 pm

Nov. 1 from 7 am to Noon, 1 pm to 5 pm

**All voting equipment
is tested in public.**

State law requires voting equipment be tested in public before each General Election.

Come see the test for yourself!

Tuesday, Oct. 29th at 10 am at
Village Hall – 210 Commercial
St., Brooklyn, WI

**Absentee ballots
must arrive by Election Day**

ABSENTEE BALLOTS

Haven't returned your absentee ballot yet?

Do so as soon as you can!

**All absentee ballots must arrive (Village Hall – 210
Commercial Street, Brooklyn, WI)**

by 8 p.m. on Nov. 5 to be counted.

**You can vote at
the polls on November 5**

ELECTION DAY

**Tuesday, November 5th from 7 am to 8 pm
At Village Hall - 210 Commercial St., Brooklyn,
WI**

Get ready to vote on Tuesday, Nov. 5 by seeing
what's on your ballot.

October 2024 News from Your Senior Center

By Rachel Brickner

Turning on your television these days can lead to a lot of advertising annoyances. It can be difficult to decide whether you are more tired of seeing political ads or of being bombarded with Medicare Open Enrollment ads.

However, those ads remind us to do two important things: vote and review our Medicare coverage.

If you are enrolled in Medicare, now is your annual opportunity to make sure that the coverage you have will continue to be your best option next year. Open Enrollment runs from October 15 to December 7.

Insurance is not a one-size-fits-all experience, especially when it comes to Medicare Part D (prescription drug insurance). Part D plans can change a lot from year to year. Plans can drop drugs from their formularies, meaning one of your prescriptions may no longer be covered. Plans can change the pharmacies they prefer to work with, meaning your pharmacy might charge you more for the same meds.

Insurance companies bank on the fact that people tend to pick a plan and stick with it for several years. Most people don't want to look for a cheaper alternative every year. But you should check, because there well might be a better plan for you.

If you are fairly computer-savvy you can check out Part D plans on Medicare's website. If that does not sound like a fun way to spend your time, you can call the case managers here at the Senior Center. Carol and Noriko make appointments to help people review their Part D coverage. It is a free service. We do ask you to call ahead and speak to one of them, rather than just stopping in.

The ads on television for Medicare Open Enrollment are not merely annoying. They can also result in people calling the number on the screen and signing up for a product that still isn't necessarily the best for them. Advertisers are all about marketing to entice more customers because that means more money in their pockets. The case managers do not stand to make any money no matter what you decide to do.

Take advantage of the free, confidential opportunity to see if it makes good financial sense to change your Part D provider in 2025. Call the Senior Center at 608-835-5801 and ask to speak with Carol or Noriko. Please do not delay, as their schedules get busy, and Open Enrollment doesn't last forever. Thank goodness. And remember to vote.

Brooklyn Village Board Meeting Minutes September 9, 2024

On September 9, 2024, President Mark Bruner called the Village Board meeting of the Village of Brooklyn to order at 6:30 p.m. at the Village Hall. Trustees present were Chris Groenier, Dan Olson, Michael Gehrmann, David Berland, Mike Brusberg and Christian Allen. Also present were Jeff Groenier and Mark Mortensen and Clerk-Treasurer Linda Kuhlman. Pledge of Allegiance. No public comments. Nothing in the President's Report.

Olson made a motion to approve minutes from August 26. Gehrmann seconded. Motion carried. Allen abstained.

Mortensen & Groenier – Bruner asked what caused the change between what we agreed in March and the current proposal. Mortensen said they got the development agreement and it was reviewed by their accountant and attorney, who brought up a couple of points. One was the financial aspect, basically them guaranteeing \$2 million didn't make it economically feasible on top of the \$1.5 million they're putting into the development. The second big factor is the road. If they don't know where the road can go, they don't know where lots will be. The third is getting into competition with the village. If they're talking having 6-7 acres that they're going to develop and need to sell, they don't want to sell for more if we are selling other land for \$65,000 an acre. How can we take care of some of these and eliminate the guarantees. They would purchase land and give money to the village up front to pay off some debt and work with the village on other guarantees. Bruner said running the numbers from August, that doesn't even cover what we owe on the debt. If we sell and give all the credit they're asking for, that puts the village on the hook for debt. Groenier said that's the feedback they were looking for. We still don't know about the road, and it might have to be lined up with the other road. In that case, they will lose land and not be able to split. They were hoping to do this discussion instead of the no, and if you don't answer, we're not going to do it. They're willing to work with the village and they want to buy land. Discussion on pricing of land sales, guarantees, and the DOT response for the road. Bruner said we can get in touch with Representative Jacobson to put pressure on them. Brusberg in terms of competition with the village, if we think of the 15 acres, a portion of which is earmarked for them and also direct to purchase for O&A, there's unlikeliness to be competition, because most of it has been earmarked. There is only a couple acres below Northern Metal. Mortensen said if they give an offer for all 30, then O&A has to execute their offer. Bruner said recouping outlay for land doesn't make the TID whole. Mortensen said if they invest \$2 million, they're not going to sit and do nothing with it. They don't want to get stuck on the end, that they're on the hook for that. Olson said the guarantees were based on what they were proposing for

building; that's where we got the numbers from. Discussion. Olson said there's a communication gap between the board and Mortensen and Groenier. We were reaching out and not getting responses. If they knew there was something that was a holdup, they could have reached out. We're sitting on land and we need to sell it to pay for other loans. We had the meeting in March and got the development agreement and everything looked good, and we thought everything was good. And now we're at this point, and we said we need a response. Discussion.

Bruner asked what are they willing to negotiate on. We need to come to a happy medium. Mortensen said they need to know where the road is, and the other big number is what the minimum guarantee will be. What is the guarantee we need to make it successful, for the whole thing. They're willing to do all 30 acres. Bruner said if we work out terms, how soon are they ready to pull the trigger. If we can get it worked out, we need to close soon. Groenier said they have cash and it could happen real soon. Bruner said we need to get an answer from DOT. He will reach out to Jenna Jacobson. Allen suggested reaching out to other people. Olson said we will also need an updated amount on sewer and water, and what we would reimburse for. Groenier will have updated numbers in a week. Contact will be made to Jacobson and others that can help. Berland said to contact anybody that might know somebody. Discussion on sending in writing and emails to get approvals. Allen said that's priority and getting updated numbers. Brusberg said we'll work with Ehlers and what we need to make this work and minimum guarantees. The board asked them to come back in two weeks and talk about progress. **Brusberg made a motion to postpone further discussion to next meeting on September 23.** Olson seconded. Motion carried.

Bruner asked for a chair for the rest of the meeting, as he isn't feeling well. Gehrmann nominated Olson. **Olson nominated Brusberg as chair.** Allen seconded Brusberg. Motion carried. Bruner left the meeting at 7:29 p.m.

Olson made a motion to postpone hiring a commercial realtor to September 23. Berland seconded. Motion carried.

Kuhlman said she added Dane County dog licenses to the bills for a total of \$863.75. Olson also found Diamond Vogel paint charged tax, so we need to get that tax exempt. Kuhlman will send them a tax exempt notice. Olson and Brusberg reviewed the bills. **Berland made a motion to approve bills as presented, less the taxes and the addition of dog licenses.** Gehrmann seconded. Motion carried.

Clerk's Report – Financials for August were \$347,865.77 in deposits, which included July tax payments of \$245,154.87. Withdrawals were \$503,882.46. So balance at the end of August is all accounts was \$2,202,544.98. The board has the rest of the financials, including investment statements. We received a letter from CARPC approving the Urban Service Amendment. November election is coming up, and absentee ballots will be going out in the mail next week. We thought we would be getting the new squad this year, but it will now be sometime next year. They updated the cost by 5% for next year. Gehrmann asked how it is to work with the investment company. Kuhlman said they send us the monthly reports, but don't we talk otherwise. We have not lost money on any of the investments. Brusberg said the consolidated summary is nice and easy to follow. Kuhlman said it is making a little more than if we had it at the bank. We filed Small Claims on Selene Homes, but the address was bad, so the process service company is doing a skip trace for a better address. They do have an agent listed with the state. Dane County is doing a comp plan amendment.

We were approached by Green County Development Corporation and Victoria Solomon, who works at UW-Extension, to be part of a **Green County Leaders First Impression visit.** They have about 13-14 people who go into a municipality and do a first impression look. They then meet and discuss their findings. They have done Monticello and Albany, and they have now chosen Brooklyn. It will take place on November 13. Victoria will then put it into a report. There is no cost, but they would like some community leaders to be present. It will take place at the community building, and then they do a mixer somewhere in the Village after the meeting.

TIF 1 closed. The final audit and accounting are included for the board. The remaining balance was distributed as follows – Dane County received \$3,915; Green Count \$20,766; Oregon School District \$58,730; Madison College \$4,108; and the Village gets \$36,037. Brusberg asked if ours will go into the General Fund. Kuhlman confirmed and said it can be earmarked for specific purposes.

Budget - Sheriff department wages increased because of health insurance, but they haven't gotten their final wages yet. Our levy limit, with closing of TID 1 and net new construction, increased by \$25,000. Net new construction was around 2.5%, and we should see additional increase next year with building this year. October will be the more in-depth discussion on the budget.

Discussion on **village hall front door lock and camera quotes.** The board asked to get a quote for front door only and back door. Discussion on using something like SimpliSafe for the front door camera. Groenier left the meeting.

Fire/EMS Commission -- Brusberg said the joint meeting will now be September 24 at 6 p.m. October 13 is the pancake breakfast. Chief Linzmeier came from Oregon Fire District. There was a letter provided a year ago that expressed a desire to look into furthering the partnership. There was dismissiveness at the time. The new district board and Brusberg thought it was good for us to reassess that and how it will be a benefit, how they can provide coverage to all the communities better and work together. The commission gave guidance to proceed with that. Linzmeier is going to the Oregon District Board and will then come back if they say yes. They will convene a joint body of district board members and personnel from both of the districts to meet and discuss. They're putting together a committee to work on policies and procedures. They're looking at policies on what the chief can do and also clarity of when to get bids. Budgets were discussed. They potentially want to purchase a new defibrillator, and rough cost is around \$50,000. Ambulance is around \$260,000 and still coming. The intention is to use grant money and unallocated funds. Nothing was reflected for the tender, but it's on the radar. Total budget is roughly a 4.3% increase overall across the two budgets. There are some line items they have questions to unpack and some sharpening of the pencil. Marx and Mason and Brusberg want to meet regarding wage increases. They have good confidence around the \$75,000 run revenue. There has been an uptick in those collections. Kuhlman noticed that the EMS budget looks pretty good, but the fire department needs more review. She developed a spreadsheet showing the amount left over every year from budgets, and it averages around \$20,000 in excess every year for the last five years. There's no reason that taxpayers should contribute that with their tax money and then it sits there every year. Discussion on budget. Berland left the meeting at 8:02 p.m. Brusberg said there isn't a meeting before the joint meeting. He will look at what Kuhlman found. Brusberg asked if there's anything else to address. Kuhlman said they should relook at the fire budget, and they might not have to raise the budget at all. The chief benefits line is \$25,000, what is all included in there. Brusberg said we have the 15% included for WRS. Kuhlman also said there should be a specified number of hours that the chief can be left with of vacation at the end of the year, instead of leaving it that anything left will be paid out at the end of the year. Olson said there's a reason to have vacation time, and that's to take it. Gehrman said you're usually expected to take vacation days during the year. Brusberg said they have had that discussion, and the response is that if he does, they can potentially be out of service. Gehrman said they need to encourage him to take vacation. Brusberg will take suggestions back to the commission.

No closed session. **Olson made a motion at 8:09 p.m. to adjourn.** Gehrman seconded. Motion carried.

Linda Kuhlman, WCMC, CMTW
Clerk-Treasurer

~~~~~

## **Brooklyn Village Board Meeting Minutes September 23, 2024**

On September 23, 2024, President Mark Bruner called the Village Board meeting of the Village of Brooklyn to order at 6:35 p.m. at the Village Hall. Trustees present were Chris Groenier, Dan Olson, Michael Gehrmann, David Berland, Mike Brusberg; and Christian Allen arrived at 6:41 p.m. Also present were Jeff Groenier and Mark Mortensen, Jenna Jacobson, Brandon Loncaric, Katie Scheifelbein, and Deputy Clerk-Treasurer Vicki Olson. Pledge of Allegiance.

**Public Comments** – Introduction of State Representative Jenna Jacobson.

**President's Report** – Sending our deepest sympathies to Linda's family in the passing of her brother.

**New Business** – Oregon Youth Center Update by Director of Youth Center - Brandon Loncaric and President of OYC Board - Katie Scheifelbein. Katie provided an overview of updates from last year. The center has seen an increase of youth at the center from 5<sup>th</sup> through 9<sup>th</sup> grade. Also, there has been an increase in community involvement which has helped provide additional resources for the center and the kids (food, backpacks, etc.). Thank you for increasing the funding last year. Brandon explained that the school youth center is a free afterschool program(s). There were about 212 students over the past year. (14% roughly 30 kids were Brooklyn kids). Katie explained that as a board they were looking at increasing funding to help increase staff members. We have submitted a packet of information for you for the meeting tonight to give you more of an overview of our numbers and why we are asking the Village of Brooklyn to increase their donation from \$3000 to \$5000 this next year (2025). The total anticipated budget for 2025 we would like to have \$80,000 currently we are at \$60,000. Thank you for coming in this evening.

**Bills** – Olson made a motion to approve bills except for Voucher 14759. Brusberg seconded. Discussion. Vote taken; motion passed. Brusberg made a motion to approve Voucher 14759. Gehrmann seconded. Discussion. Vote taken; motion passed with Olson abstaining.

**Mortensen & Groenier Re: Purchase of property in TID 2** – Discussion about where numbers are coming from, acreage, increment, amount of debt for the business park, guarantees, road placement not even close to where they want it, stormwater system, lot/acreage due to road placement, Mortensen/Groenier want the village complete developer agreements for sales of their properties/leases, what type of businesses does the village want in the business park, discussion about raising land price to decrease increment. Olson to set up a Special Village Board Meeting with Ehlers, Mortensen/Groenier, and board members to go over the key assumptions of the numbers that were used in the scenarios either on Sept. 30<sup>th</sup> or Oct. 7 at 5 pm via Zoom.

**Brusberg made a motion to reach out to Ehlers to get documentation of the various key assumptions that make up the current scenarios that have been presented to the village and to postpone any further action until having a special board meeting with Ehlers, Mortensen/Groenier via zoom. Olson seconded. Discussion. Vote taken; motion passed.**

**Olson made a motion to postpone discussion/taking action with the hiring of a commercial realtor. Groenier seconded. Discussion. Vote taken; motion passed.**

**Berland made a motion to postpone action on action on electronic door locks, cameras, and keypad entry at Village Hall. Groenier seconded. Discussion. Vote taken; motion passed.**

**Personnel Committee** – Berland explained that the personnel committee and the board had approved a 50 cent per test raise for Joe and Brian for tests that they passed throughout the year. There was some confusion, and they only received a 50 cent raise each by subject area not by test passed. So, for Joe specifically he passed 3 tests and only one 50 cent raise. The committee has recommended a 50 cent raise retroactive to the exam

that he passed in March and a 50 cent raise that he passed in July bringing his wage rate which is currently at \$22.50 up to \$23.50 at currently. He is likely to pass one more exam this year which will bring him to \$24.00/hour. So then as a personnel committee we are recommending to the board a 3.5% increase across the board for each of the staff members except Brandon which I will explain in a second. Wage Rates for 2025 starting December 31, 2024: Linda \$30.00/hr, Vicki \$24.80/hr, Leif \$39.30/hr, Brian \$32.70/hr, Joe's rate will be \$24.80/hr \*conditional upon him passing one additional test this year if he doesn't pass the test then his pay rate will be \$24.30/hr, Brandon was identified as a very high performer and the personnel committee is recommending that he get a raise to \$30.00/hr. We are also recommending that Joe and Brian continue to have the incentive available of 50 cents per test raise to four tests per year for a maximum of \$2.00 per year that they can earn incentive. Each has more than 4 tests per year for certifications. Numbers were reviewed for budgeting and the impact is unlikely to be substantial, also the health insurance has increased. **Gehrmann made a motion to accept the recommendations from the personnel committee as presented with the excluding of V. Olson. Brusberg seconded. Discussion. Vote taken; motion passed. Gehrmann made a motion to accept the recommendations from the personnel committee as presented for V. Olson. Brusberg seconded. Discussion. Vote taken; motion passed with D. Olson abstaining.** Berland also stated that they would finish the narrative summaries for Spilde and Kuhlman as evaluations and submit them for approval. **No need for a closed session.** **Groenier made a motion to adjourn at 7:39 p.m.** Allen seconded. Vote taken; motion passed.

Vicki L. Olson, WCMC, CMTW  
Deputy Clerk-Treasurer

**Brooklyn Village Board Meeting Minutes  
September 30, 2024 via Zoom**

On September 30, 2024, President Mark Bruner called the Village Board meeting of the Village of Brooklyn to order at 5:00 p.m. via Zoom. Trustees present were Chris Groenier, Dan Olson, Michael Gehrmann, Mike Brusberg and Christian Allen. Trustee David Berland was absent. Also present were Jeff Groenier and Mark Mortensen, Greg Johnson and Paul Boening from Ehlers, and Clerk-Treasurer Linda Kuhlman.

Greg Johnson walked through the analysis. He recapped that the Village earlier in the year added years and land to TID 2. He walked through the two different scenarios. Scenario 1 shows a needed \$19 million incremental value by 2029-2030. We can collect tax increment until 2039, and it can't be extended further. There's a two-year lag between construction and when tax increment is generated. He used \$1.8 million of land sales in 2025 for both scenarios. He explained the revenues and debt in the TID and expenses, and the model shows how to get to a positive balance at the end of the TID. This is not a guarantee or prediction. It's just an illustration to show how time impacts the performance of a TIF district.

Jeff Groenier asked if the land revenue from O&A's first purchase is in the analysis. Kuhlman answered that Ehlers started with those amounts figured in. Johnson stated shown in 2023 is incremental value certified by DOR at the time in year 9. Mortensen asked how much does O&A have now. Johnson said they take into account the entire incremental district for the whole. Greg Johnson went through the second scenario which shows approximately \$15 million needed over a few years starting in 2026.

Bruner asked what is the next step. Brusberg put it on Groenier and Mortensen. Mortensen said they need to know what the village wants. He said it goes close to their most recent proposal – they can buy but they can't put guarantees. They don't have anything to guarantee. Then it makes sense for the village to develop and sell off. They're interested in purchasing land, but don't want to stick out their necks with the guarantees attached to it. Brusberg said knowing guarantees are the biggest concern, when they think of how land is used, what type of value add could we potentially see for each of these lots. At first it was incubators built on lots and now it's develop and sell off. Groenier said individually if sold off, they would be able to meet the \$500,000

mark. If they develop, get offers to purchase, then the village would negotiate with each property owner what value would be. Brusberg, any questions for Greg or Paul. Groenier said they're missing \$150,000 from the land sale. There's another 30 acres to be sold at \$60,000-65,000, so the land sale price is higher than potentially on this sheet, but not significantly that will change numbers. The park is \$4.2 million in debt right now and that won't change a lot of the numbers. Brusberg said there was infrastructure and debt from beginning of TID, and we've tried to work with that deficit. We have to have near term development. The longer we kick the can down the road, the harder the math becomes. Gehrmann said the guarantee is an issue. What do you think without a guarantee; what do you think you would be adding for value. Mortensen doesn't have anything, because it keeps changing. They found out three weeks ago the road can't be where they expected it to be, and so there will be more costs in that. The way the economy has changed in the last year and a half is another factor. He doesn't know. Groenier said if they were to buy and develop, they would make the most for the village. The land will be worth \$100,000/acre and could easily be \$500,000 per acre for value built. Brusberg asked how fast do you think you'll go if you move forward. Mortensen said they're not developers. This started as again All Color wanting to buy some land and it's changed into this. A big portion was going to be All Color. They won't be adding anything that the village couldn't achieve on their own. How do they put a value on it. It's not their business. They're not charging 3-5% on land sale. They would be brokering the land unless they bought it personally and put up some buildings. Groenier said the goal would be to sell it as fast as possible. They will be trying to get done as soon as possible and listing as soon as property is closed. The other thing is the other land is worth more than the village is asking for it, and they would like an agreement to charge more so we don't compete. Gehrmann said we can't force the increment guarantee onto buyers because if we haven't improved this, the guarantee would have to be bigger. It behooves us to move as soon as possible. Bruner asked if there were any more questions for Ehlers, or can we let them leave? Groenier said he thinks they explained it. Bruner thanked Greg and Paul. They left the meeting.

Bruner, what information do you want to give to the board. We will have to go into closed session and talk. What will it take to make this deal? Mortensen said it comes back to the guarantees. They don't make financial sense. The other scenario that makes sense is for the village to develop, raise the price and do it that way. The hesitation there is if they want to build in the future, the price could go up. Discussion.

Bruner said the board will go into closed session and will talk to them tomorrow. Bruner is hoping we can make it work.

**Tree bids** – Urben bid for all 3 instead of separately. Olson said Urben Forestry did brush grinding and came in \$3,000-4,000 cheaper than normally ground every other year. Olson has no reservations about it. We haven't worked with them other than the tub grinding. We have with Jim's, but with that big of a difference it would be nice to give Urben a shot and see how their work is, and maybe in the future they would be a go-to person. Bruner asked if they included stump grinding. Olson doesn't know what the description said. **Olson made a motion to approve Urben Forestry for the bid for the tree removal, total of 3 trees at a cost of \$3,200.** Brusberg seconded. Motion carried.

**Gehrmann made a motion at 5:47 p.m. to convene into closed session.** Olson seconded. Ayes – Brusberg, Gehrmann, Bruner, Olson, Allen, Groenier. Noes – none.

**Brusberg made a motion at 6:26 p.m. to reconvene into open session.** Olson seconded. Ayes – Brusberg, Gehrmann, Bruner, Olson, Allen, Groenier. Noes - none.

**Brusberg made a motion to approve the negotiation that was discussed in closed session.** Gehrmann seconded. Motion carried. Groenier abstained.

**Gehrmann made a motion at 6:28 p.m. to adjourn.** Brusberg seconded. Motion carried.
