### What is a PBA?

Prescribed Burn Associations (PBAs) are groups of landowners and other interested people that share knowledge, equipment, and other resources to conduct prescribed fires. It is a way for neighbors to help neighbors implement fire on their lands.

### Meeting Topics

#### Why fire is important

Fire is a natural process that keeps forests and grasslands healthy.

#### How burn associations work

PBAs are a proven model to organize landowners so they can help each other conduct prescribed fires.

#### Training & equipment support

Support is available to help landowners get fire on the ground.
