

Do I need a building permit? Also How do I get one? (Residential)

Since the township does not have their own planning and zoning commission we fall under Schuylkill County Planning and Zoning commission located at the Schuylkill County court house.

First thing to do is to call Planning and Zoning at the court house (570-628-1416) Zoning Officer

Email zoning@co.schuylkill.pa.us Fax# 570-6281415

Susan A Smith is the Director

If determined that you will need a zoning permit, you must get one before applying for a building permit.

If you are in a Flood Zone or need to find out if you are in one, the zoning office can tell you, if not the township can. Call flood plain administrator Robert Butensky (570-751-2000)

If you are approved to build, call Fred Bainbridge at (570-527-6168) E mail mandb21@verizon.net

You must have a zoning permit before a building permit can be issued.

Commercial Building Permits

Same as above except building permits will be issued thru Benesch Engineering, call Dave Horst (570-294-0594)

The fee schedule for commercial permits is different from residential permits,

Additional Information Regarding Zoning Fees

¹ **An extension of a zoning permit may be requested.** Pursuant to Section 103.E of the Schuylkill County Zoning Ordinance (2010-1) states, in part, that work authorized by zoning permits shall be substantially completed within 24 months after the issuance of the zoning permit, unless specifically stated otherwise on the permit. Failure to comply with the aforementioned time limit, the Zoning Officer shall conclusively presume that the applicant has waived, withdrawn or abandoned approvals, variances and permits under this Ordinance and all such approvals, variances and permits shall be deemed automatically rescinded by the County. **In response to an applicant stating good cause in writing, the Zoning Officer may extend in writing the time limit for substantial completion of work to a maximum total of 48 months after permits are issued.**

² **Property owners may request "Zoning Verification Letters".** The purpose of the Zoning Verification Letters is to satisfy requirements of other applications (i.e. sales of used autos, license to sell weapons, etc). These Zoning Verification Letters are meant to indicate only if the use is permitted in a particular Zoning District. A Zoning Verification Letter does not relieve the property owner from applying for a permit for such use. A Zoning Verification Letter is not an indication of permit approval.

Zoning Permit Fees, regardless of approval or denial, are non-refundable. Applicants who submit incomplete applications will have their full application fee returned along with their permit application.

Additional Information Regarding Subdivision and Land Development Fees

Where combinations of subdivision and land development are proposed on a plan, the fees must be determined separately and added together.

³ Engineering Escrow amounts are intended to cover consulting fees incurred by the County during the plan review process and/or inspection period and are not considered estimates of the cost of such services. Fees may vary based on the unique circumstances and complexities of individual applications. These fees are billed as set forth in this fee resolution, as may be amended from time to time. Failure to maintain a positive escrow balance

will result in a stoppage of work and the addition of a late payment penalty on any balance unpaid after 30 days, as established by this fee resolution, until the escrow fund is replenished to a minimum balance of 50% or greater than the original escrow posted. **Applicants who do not have a positive balance in their escrow account at the time a bill is received for the project will be charged an administrative fee equal to 10% of the bill(s) received.** Application fees and escrows should be paid on two separate checks, both made out to the "Schuylkill County Treasurer". Upon the recording of the Subdivision or Land Development Plan, as applicable, with the Recorder of Deeds and the payment of all County engineering, legal and other expenses incurred by the County, exclusive of work performed by full-time County staff members, the Applicant may submit a written request to the County Planning Office for a refund of the unused escrow account. Money held in escrow will not be returned until all invoices from the County's Consulting Engineer have been received by the County and paid by the Applicant.

Schedule 6.1 Escrow Fees are based on the number of lots or units and include annexations where there is separate and distinct ownership; minor subdivisions, and major subdivisions. All land uses are included, residential, commercial, industrial, public, quasi-public, and other.

Schedule 6.2 Escrow Fees are based on the acreage of the area to be disturbed. The total area to be disturbed is most accurately calculated by CAD software and is subject to review by the Engineer.

The terms "lots", including the residual tract or lot, includes a designated parcel, tract or area of land established by plat or otherwise permitted by law and to be used, developed or built upon as a unit.

For subdivisions that transcend the boundary limits of any municipality governed under the Schuylkill County Subdivision and Land Development Ordinance, only those lots/units which are located entirely or partially within the limits of any municipality governed by the Schuylkill County Subdivision and Land Development Ordinance shall be considered when determining appropriate escrow fees. The entire building square footage shall be considered when determining appropriate Schedule 3 Fees whether or not the building lies entirely within a municipality governed by the Schuylkill County Subdivision and Land Development Ordinance.

An applicant may withdraw the submission of a plan at any time prior to the approval or disapproval of the plan. If the application is withdrawn within 7 calendar days of the plan submittal, the applicant will be reimbursed the plan fees less \$75. However, if the applicant withdraws their plan any time thereafter no fees will be reimbursed to the applicant.

Until a submission is approved or disapproved by the Planning Commission, the applicant may submit a revised plan following the submission and review procedures, which apply to that plan. **Any submission of a Revised Annexation or Minor Subdivision Plan must be accompanied by a fee equal to 50% of the original fee. Any submission of a Revised Major Subdivision and Land Development Fee must be accompanied by \$75. Additional review fees from the County's consulting engineer should be anticipated.**

If the applicant requests a special meeting in order to expedite the review process and the County agrees to such request, the applicant shall pay for all advertising and administrative costs for the requested meeting.

Calculating Building and Impervious Coverage Worksheet

Instructions: Enter Your Numbers in the Cells Colored Orange. Complete the Calculations.

Step 1. Determine Total Square Footage of Property

| | | |
|----------------------|-----------|----|
| Total Acreage | | OR |
| multiply by (x) | 43,560.00 | |
| Total Square Footage | | |

| | |
|----------------------|--|
| Length (in feet) | |
| Width (in feet) | |
| Total Square Footage | |

Multiply the Length times Width to get the Total Square Footage

Step 2. Determine Building Coverage Percentage (%)

2.1 Calculate Total Square Footage of all Existing and Proposed "Covered" Structures

| | Existing + Proposed = | Total |
|---------------|-----------------------|-------|
| House | | |
| Shed(s) | | |
| Garage | | |
| Covered Deck | | |
| Covered Porch | | |
| Other | | |
| Totals | | |

2.2 Divide by the Total Building Square Footage from Total Square Footage Calculated in Step 1.

| | |
|---------------------|---------------------|
| Total Building Sqft | Total Property SqFt |
| | |
| Divided By | |
| Equals | |

2.3 And Multiply above answer by 100

0 x 100 =
Building Coverage (%)

Step 3. Determine Impervious Coverage Percentage (%)

3.1 Calculate Total Square Footage of all Impervious Coverage

| | Existing + Proposed = | Total |
|--------------------------------|-----------------------|-------|
| House | | |
| Shed(s) | | |
| Garage | | |
| Covered Deck | | |
| Covered Porch | | |
| Walkway | | |
| Sidewalk | | |
| Patio | | |
| Driveway | | |
| Inground Pool | | |
| Other (from Building Coverage) | | |
| Other (Impervious Coverage) | | |
| Totals | | |

3.2 Divide by the Total Impervious Square Footage from Total Square Footage Calculated in Step 1.

| | |
|-----------------------|---------------------|
| Total Impervious Sqft | Total Property SqFt |
| | |
| Divided By | |
| Equals | |

3.3 And Multiply by 100

0 x 100 =
Impervious Coverage (%)

Step 4. Enter Your Percent Building Coverage and Percent Impervious Coverage Below and on the Application
